Lives of Ants Jae Choe,2012-04-01 In the great naturalist tradition of E O Wilson Jae Choe takes readers into a miniature world dominated by six legged organisms This is the world of the ant an insect that humans as well as most other life forms depend upon for their very survival Easily one of the most important animals on earth ants seem to mirror the actions emotions and industries of the human population often more effectively than humans do themselves They developed ranching and farming long before humans and their division of labor resembles the assembly lines of automobile factories and multinational enterprises Self sacrifice and a finely tuned chemical language are the foundations of their monarchical society which is capable of waging large scale warfare and taking slaves Tales of their massacres and atrocities as well as struggles for power are all too reminiscent of our own The reality of ant society is more fascinating than even the most creative minds could imagine Choe combines expert scientific knowledge with a real passion for these miniscule marvels His vivid descriptions are paired with captivating illustrations and photographs to introduce readers to the economics culture and intrigue of the ant world All of nature is revealed through the secret lives of the amazing ants In the words of the author Once you get to know them you ll love them **The Open Court** Paul Carus,1893 Judicial and Statutory Definitions of Words and Phrases ,1904 **The Removal of Causes from State to Federal Courts** Robert Desty,1886 **Jesus for Most People** Emanuel Polioudakis,2010-12-16 Jesus for Most People is for people who believe God used the Big Bang to create the universe used evolution to create people and sent Jesus to teach The book updates the Enlightenment outlook It summarizes scholarly work on Jesus and the early Church It explains the biological evolution of morality and it looks there for clues about God Some ideas here about Jesus and about the evolution of morality are new but not silly The book builds a solid base for reasonable belief so people can avoid religious and secular wackiness *Ants* William Morton Wheeler,1910
