The Cape Hatteras Lighthouse Dawson Carr, 2012-09-01 Since 1871 the Cape Hatteras lighthouse has been a welcome sight for sailors entering the treacherous region off North Carolina's Outer Banks known as the Graveyard of the Atlantic At 208 feet high it is the tallest lighthouse in the country and one of the state's most famous landmarks Through the years it has withstood the ravages of both humans and nature weathering numerous violent storms and two wars But perhaps the gravest threat the structure faced in recent history was the erosion of several hundred yards of beach that once stood between it and the ocean As powerful tides and rising sea levels increasingly endangered the lighthouse's future North Carolinians debated fiercely over how best to save it eventually deciding on a controversial plan to move the beacon inland to safety First published by UNC Press in 1991 this book tells the story of the noble lighthouse from its earliest history to the present day In this new edition Dawson Carr details the recent relocation of the treasured landmark For now it seems North Carolinians have succeeded in protecting their lighthouse as it has protected them for over a century *Exploring Cape Hatteras and Cape Lookout National Seashores* Molly Perkins Harrison, 2003-08 Wildlife viewing water sports hiking and biking are just some of the activities visitors can enjoy at this national seashore park This guide has tips on what to do where to eat and where to sleep 25 maps Photos
