Cape Grimm:

The Fairy Tale World Andrew Teverson, 2019-03-26 *The Fairy Tale World* is a definitive volume on this ever evolving field. The book draws on recent critical attention contesting romantic ideas about timeless tales of good and evil and arguing that fairy tales are culturally astute narratives that reflect the historical and material circumstances of the societies in which they are produced. *The Fairy Tale World* takes a uniquely global perspective and broadens the international cultural and critical scope of fairy tale studies. Throughout the five parts the volume challenges the previously Eurocentric focus of fairy tale studies with contributors looking at the contrast between traditional canonical fairy tales and more modern reinterpretations. Responses to the fairy tale around the world including works from every continent applications of the fairy tale in diverse media from oral tradition to the commercialized films of Hollywood and Bollywood debates concerning the global and local ownership of fairy tales and the impact the digital age and an exponentially globalized world have on traditional narratives the fairy tale as told through art dance theatre fan fiction and film. This volume brings together a selection of the most respected voices in the field offering ground breaking analysis of the fairy tale in relation to ethnicity colonialism feminism disability sexuality the environment and class. An indispensable resource for students and scholars alike *The Fairy Tale World* seeks to discover how such a traditional area of literature has remained so enduringly relevant in the modern world. *The 'Imagined Sound' of Australian Literature and Music* Joseph Cummins, 2019-09-20 *Imagined Sound* is a unique cartography of the artistic historical and political forces that have informed the post World War II representation of Australian landscapes. It is the first book to formulate the unique methodology of imagined sound a new way to read and listen to literature and music that moves beyond the dominance of the visual the colonial mode of knowing controlling and imagining Australian space. Emphasising sound and listening this approach draws out and re-examines the key narratives that shape and are shaped by Australian landscapes and histories stories of first contact frontier violence the explorer journey the convict experience non-Indigenous belonging Pacific identity and contemporary Indigenous Dreaming. *Imagined Sound* offers a compelling analysis of how these narratives are reharmonised in key works of literature and music. *Despatches and papers relating to the settlement of the states* Australia.
