(2nd Edition) Yash Tandon, 2018-05-04 Globalization has reduced many aspects of modern life to little more than
commodities controlled by multinational corporations Everything from land and water to health and human rights is today
intimately linked to the issue of free trade Conventional wisdom presents this development as benign the sole path to
progress Yash Tandon drawing on decades of on the ground experience as a high level negotiator in bodies such as the World
Trade Organization here challenges this prevailing orthodoxy He insists that for the vast majority of people and especially
those in the poorer regions of the world free trade not only hinders development it visits relentless waves of violence and
impoverishment on their lives This revised and updated edition of Trade Is War shows how the WTO and the Economic
Partnership Agreements are camouflaged by rhetoric that hides their primary function as the servants of global business
Their actions are inflaming a crisis that extends beyond the realm of the economic creating hot wars for markets and
resources fought between proxies in Africa Asia Latin America the Middle East and now even in Europe In these pages
Tandon suggests an alternative vision to this devastation one based on self sustaining non violent communities engaging in
trade based on the real value of goods and services and the introduction of alternative currencies **The International**
