**The Captured Womb** Ann Oakley, 1984      **First Things** Mary Jacobus, 1995 Mary Jacobus combines close readings with theoretical concerns in an examination of the many forms taken by the mythic or phantasmic mother in literary psychoanalytic and artistic representations      [Exercise in the Female Life-Cycle in Britain, 1930-1970](#) Eilidh Macrae, 2016-07-09 This book examines how adolescence menstruation and pregnancy were experienced or managed by active women in Britain between 1930 and 1970 and how their athletic life styles interacted with their working lives marriage and motherhood It explores the gendered barriers which have influenced women s sporting experiences Women s lives have always been shaped by the socially and physically constructed life cycle and this is all the more apparent when we look at female exercise Even self proclaimed sporty women have had to negotiate obstacles at various stages of their lives to try and maintain their athletic identity So how did women overcome these obstacles to gain access to exercise in a time when the sportswoman was not an image society was wholly comfortable with Oral history testimony and extensive archival research show how the physically and socially constructed female life cycle shaped women s experiences of exercise and sport throughout these decades      *Colonial Modernities* Ambalika Guha, 2017-07-20 The subject of medicalisation of childbirth in colonial India has so far been identified with three major themes the attempt to reform or sanitise the site of birthing practices establishing lying in hospitals and replacing traditional birth attendants with trained midwives and qualified female doctors This book part of the series *The Social History of Health and Medicine in South Asia* looks at the interactions between childbirth and midwifery practices and colonial modernities Taking eastern India as a case study and related research from other areas with hard empirical data from local government bodies municipal corporations and district boards it goes beyond the conventional narrative to show how the late nineteenth century initiatives to reform birthing practices were essentially a modernist response of the western educated colonised middle class to the colonial critique of Indian sociocultural codes It provides a perceptive historical analysis of how institutionalisation of midwifery was shaped by the debates on the women s question nationalism and colonial public health policies all intersecting in the interwar years The study traces the beginning of medicalisation of childbirth the professionalisation of obstetrics the agency of male doctors inclusion of midwifery as an academic subject in medical colleges and consequences of maternal care and infant welfare This book will greatly interest scholars and researchers in history social medicine public policy gender studies and South Asian studies      **A Cultural History of Pregnancy** C. Hanson, 2004-06-11 Hanson explores the different ways in which pregnancy has been constructed and interpreted in Britain over the last 250 years Drawing on a wide range of sources including obstetric texts pregnancy advice books literary texts popular fiction and visual images she analyzes changing attitudes to key issues such as the relative rights of mother and foetus and the degree to which medical intervention is acceptable in pregnancy Hanson also considers the effects of medical and social changes on the subjective experience of

pregnancy      **Western Maternity and Medicine, 1880-1990** Janet Greenlees, Linda Bryder, 2015-10-06 The contributors to this collection look into the experiences of women in the Western world going through pregnancy and birth over the last hundred years      *Environmental Ethics and Medical Reproduction* Cristina Richie, 2024 In *Environmental Ethics and Medical Reproduction* Dr Cristina Richie uses the term medicalized reproduction MR to describe the impact of technology on human reproduction including from pre conception gamete retrieval in vitro fertilization IVF and birthing suites Unlike other areas of high carbon health care such as organ transplantation or chemotherapy medicalized reproduction does not treat cure or prevent disease It is supported by an economized medical industry and as such is open for ethical scrutiny This book considers how technology has fundamentally changed the discussion on biomedical ethics environmental ethics and reproductive ethics      Women's History: Britain, 1850-1945 June Purvis, 2008      ANZJS ,1986      Documentation Sur la Recherche Féministe ,1986      *Solidarity* ,1991      **Bulletin of the History of Medicine** ,1987 Vols for 1939 include the Transactions of the 15th annual meetings of the American Association of the History of Medicine 1939      Journal of the American Medical Women's Association American Medical Women's Association, 1987      **Uncertain Terms** Faye D.
