Peterson Field Guide to Bird Sounds of Western North America Nathan Pieplow,2019 A comprehensive field guide that uses an innovative Sound Index to allow readers to quickly identify unfamiliar songs and calls of birds in western North America Bird songs and calls are at least as important as visual field marks in identifying birds Yet short of memorizing each bird s repertoire it s difficult to sort through them all Now with the western edition of this groundbreaking book it s possible to visually distinguish bird sounds and identify birds using a field guide format At the core of this guide is the spectrogram a visual graph of sound With a brief introduction to five key aspects speed repetition pauses pitch pattern and tone quality readers can translate what they hear into visual recognition without any musical training or auditory memorization The Sound Index groups similar songs together narrowing the identification choices quickly to a brief list of birds that are likely to be confused because of the similarity of their songs Readers can then turn to the species account for more information and or listen to the accompanying audio tracks available online Identifying birds by sound is arguably the most challenging and important skill in birding This book makes it vastly easier to master than ever before [Aaaaw to Zzzzzd: The Words of Birds](#) John Bevis,2010-08-20 The distinctive and amazing songs and calls of birds a meditation and a lexicon A miraculous little book a compressed encyclopedia of our fascination with avifauna The Nation A charming funny and eccentric book Times Literary Supplement An elegant tribute to the beauty of its subject Los Angeles Times Birds sing and call sometimes in complex and beautiful arrangements of notes sometimes in one line repetitions that resemble a ringtone more than a symphony Listening we are stirred transported and even envious of birds ability to produce what Shelley called profuse strains of unpremeditated art And for hundreds of years we have tried to write down what we hear when birds sing Poets have put birdsong in verse Thomas Nashe Cuckoo jug jug pu we to witta woo and ornithologists have transcribed bird sounds more methodically Drawing on this history of bird writing in Aaaaw to Zzzzzd John Bevis offers a lexicon of the words of birds For tourists in Birdland there could be no more charming phrasebook Consulting it we find seven distinct variations of hoo attributed to seven different species of owls from a simple hoo to the more ambitious hoo hoo hoo hoo ho hoo hoo hoo the understated cheet of the tree swallow the resonant kreeaaaaaaaaaaaar of the Swainson s hawk the modest peep peep peep of the meadow pipit We learn that some people hear the Baltimore oriole saying here here come right here dear and the yellowhammer saying a little bit of bread and no cheese Bevis a poet frames his lexicons one for North America and one for Britain and northern Europe with an evocative appreciation of birds birdsong and human attempts to capture the words of birds in music and poetry He also offers an engaging account of other methods of documenting birdsong field recording graphic notation and mechanical devices including duck calls and the serinette an instrument used to teach song tunes to songbirds The singing of birds is nature at its most sublime and words are our medium for expressing this sublimity Aaaaw to
