Every Bird In Maine Ethan J. Whitaker,2022-01-21 Why would a successful Maine software developer in his early 60 s close his laptop and spend an entire year chasing a little known Birding Record Follow the author s 2021 adventure as he travels from Kittery to Caribou to Camden to Fryeburg in an attempt to see every species of bird in the State of Maine Every Bird in Maine is a stunning visual narrative of the Birds of Maine and the challenge of seeing them all You will join the author

in his Hike to the top of Saddleback Mountain to find a bird that nests at the tree line
Lobster boat trip in stormy seas to find a wayward bird that belongs in the tropics
Freezing winter excursion to glimpse a rare owl
Interactions with birders and non birders as he travels throughout the state
Every Bird in Maine includes over 400 wildlife photos by the author tied together with his humorous chronicle of an attempt to break the State's Big Year Record
Introduction In 2011 20th Century Fox released The Big Year a comedy starring Steve Martin Owen Wilson and Jack Black
The movie was characterized as a box office failure and was quietly retired to the rear of various movie streaming services
One evening while watching HBO the author stumbled across The Big Year and thoroughly enjoyed the story of three competitive birders striving to see the highest number of North American bird species in a calendar year
At the time his knowledge of birds consisted of those that visit his feeders and the Bald Eagles and Ospreys that patrolled the river by his Wiscasset home
A few months later the author met Ingrid a beautiful 4th grade teacher who was also a birder
He was smitten from the moment he met her
In a desperate effort to impress Ingrid on their second date he took her to a marsh where he had seen dozens of Snowy Egrets the previous September
The author had no idea that they had all migrated south four months earlier
Despite his birding ignorance Ingrid continued to date him and they married a year and a half later
Over time their shared birding excursions became far more successful
Ingrid patiently taught the author how to identify different species bought him a decent pair of binoculars took him to birding festivals and slowly created a birding addict
By 2015 the couple began taking their vacations at birding hotspots in Texas California and Arizona
They would rush out the door every time a rare bird was spotted and spend all of their free time in marshes bogs and at shorelines
A few years later the author asked Ingrid how she would feel about him doing a Maine Big Year in 2021 spending an entire calendar year seeing how many species of birds he could find
To do it right he'd have to retire early get his bad knees replaced and spend even more time training for his Big Year
Ingrid immediately said I think you should do it
Every Bird in Maine is a memoir of that Maine Big Year adventure
The state record sat at 317 species
Could he find 318
