Birkhauser Architectural Guide France:

Birkhauser Architectural Guide France Bertrand Lemoine, 2005-01 This illustrious guide provides insight into the buildings that contributed to the making of 20th century architecture in France. Around 1900 Art Nouveau became established as a genre in France; new architectural concepts came into being. This guide reflects the eclectic nature of the works produced throughout the last century. The buildings were selected after reviewing guides, monographs, architectural reviews that were published over the past 100 years. It concentrates on the historical aspects of each built work. There are 470 entries, another 300 buildings that are referred to within these entries. The name, address of each building, start, completion dates of the project, the names of the architects, engineers are included. Maps, photos.

Birkhäuser Architectural Guide Bertrand Lemoine, 2000 In the 20th century France has proved astonishingly fertile ground for modern architecture. The architectural ideas of Modernism and the avant garde are firmly rooted here and dominate the French architectural landscape, unlike in any other country. Her architects are acclaimed throughout the world. Paris, a center for international architecture, rightly forms the focus of this guidebook with more than 100 notable buildings. However, this guidebook also does justice to the entire country with more than 450 buildings from all regions. The buildings are documented with photographs, drawings and texts providing a comprehensive and portable guide.

Birkhäuser Architectural Guide Raúl Rispá, 1998 **Birkhäuser Architectural Guide Benelux 20th Century** Herman van Bergeijk, Otakar Macel, 1998-05-19 Whether it be Calatrava's elegant bridges in Seville or Barcelona, Peter Zumthor's beautiful thermal baths in Vals, Switzerland, Dominique Perrault's Bibliothèque Nationale in Paris or Tadao Ando's museum building on the island Naoshima, these are just a few structures which have been celebrated around the world, making their architects household names. In the 20th century we have seen striking buildings scatter our townscapes, awe-inspiring skyscrapers shape our skylines, and beautiful bridges span our rivers. Growing numbers of people are becoming aware of the architectural environment around them and are taking an interest in the issues which are at the heart of our built surroundings. The Birkhauser Architectural Guides provide a handy overview to the greatest and latest buildings in the 20th century. Each volume is devoted to one country or group of countries and the contents are organized by provinces and towns. Full addresses and information on the architect, the building itself, in addition to a general overview of the architectural scene in the given country are presented. Available are guides to Germany, Switzerland, the Netherlands, Benelux, France, Japan, and Spain at the special low price of 18.
