## **Birth Controllers:**

birth control,1922     Birth Control in Nineteenth-Century England Angus McLaren,2022-08-19 The decline of the British birth rate was arguably the most important social change to occur in the last decades of the nineteenth century but historians have shown remarkably little interest in the phenomenon Most of the work done on the question has been by sociologists and reflects their assumption that the progressive adoption of birth control was largely a matter of the lower classes aping the behaviour of their betters Originally published in 1978 this book argues against this interpretation It contends that the great interest of the nineteenth century birth control debate is that it reveals that there was not a growing consensus of opinion on the question of family planning but rather two cultural confrontations the struggle of the middle class propagandists of both left and right to manipulate for political purposes working class attitudes towards procreation and on a deeper level the clash of the differing attitudes of men and women towards the possibility of fertility control The purpose of this study is to place the idea and practice of birth control in their social and political context and four major factors are focused upon to this end the first is that the birth control issue played a key role in the confrontation between Malthusians socialists eugenisists and feminists Secondly the whole question of contraception led to a conflict between doctors quacks midwives and ordinary men and women seeking to control their own fertility Thirdly men and women belong to different sexual cultures and necessarily respond in different ways to the possibility of family regulation and finally despite the claims of some that birth control was an innovation it was the pre industrial forms of fertility control including abortion which brought the birth rate down     **Birth Control News** ,1929     **Birth Control** Halliday Sutherland,1922     Birth Control Review Margaret Sanger,1927     **The New Generation** ,1926     **The Birth Control Review** Margaret Sanger,1917     **Birth Control News** ,1933 Includes proceedings of the Society for constructive birth control and racial progress     **Sweeter by the Dozen** Randall Hekman,2019-11-15 As Christians we are convinced of the importance of making Jesus the Lord of our life But what does it mean for the number of children we have In Sweeter by the Dozen Randall Hekman shares the story of how he and his wife Marcia stopped trying to limit the number of children they would have and allowed the Lord to open and close the womb He then gives his rationale for opposing the modern idea of family planning and responds to common arguments raised against having larger families Here is a challenge to allow Jesus to be the Lord of everything even your family size     Birth Control Review Margaret Sanger,1932     Inside the Citadel R. Symonds,1999-06-03 This book discusses the contribution of individual men to the emancipation of women between 1860 and 1920 These include the pioneer of feminism J S Mill the allies of Josephine Butler the men who risked imprisonment for making available information on contraception and sympathetic writers such as Meredith and Shaw There are also chapters on the suffrage education religion medicine and entry to other professions The role of men in the removal of women s social disabilities is described as well as Gandhi s innovative involvement of women in the independence movement     **Women**
