Clemens Wendtner

Black American Ins For Children Readings In Racism:

Multicultural Literature for Children and Young Adults Mingshui Cai, 2002-10-30 There is much discussion of multiculturalism in education This is especially true of multicultural literature for children and young adults The rise of multicultural literature is a political rather than a literary movement it is a movement to claim space in literature and education for historically marginalized social groups rather than one to renovate the craft of literature itself Multicultural literature has been closely bound with the cause of multiculturalism in general and thus has been confronted with resistance from conservatives This book discusses many of the controversial issues surrounding multicultural literature for children and young adults The volume begins with a look at some of the foundational and theoretical issues related to multicultural literature The second part of the book addresses issues related to the creation and critique of multicultural literature including the authorship of such works and the role of the reader in determining whether or not a work is multicultural The third looks at the place of multicultural literature in the education of children and young adults Throughout its discussion the book makes extensive references to a large body of multicultural fiction and provides a thorough review of research on this important topic *Handbook of Research on Children's and Young Adult Literature* Shelby Wolf, Karen Coats, Patricia Enciso, Christine Jenkins, 2011-04-27 This multidisciplinary handbook pulls together in one volume the research on children's and young adult literature which is currently scattered across three intersecting disciplines education English and library and information science **Early Childhood and the Asian American Experience** Sohyun "Soh" Meacham, Su-Jeong Wee, Jinhee Kim, Sophia Han, Wu-Ying Hsieh, 2024-10-07 This essential and urgent book presents research based understandings about Asian American early childhood bringing to light the battle Asian Americans face against American nativism from their early years experiences The first of its kind in academic literature the book addresses the well known issue of underrepresentation of Asian Americans in early childhood education research and practice and in American society in general Using the intersectionality and multiple identities perspectives the authors explore a myriad of inaccurate cultural perceptions and misrepresentations centering within group differences among Asian American children and giving particular attention to disempowered groups among them Issues related to socioeconomic status gender disabilities linguistic backgrounds and minority groups among Asian American populations are addressed with implications for researchers and educators as well as context for examining the policies that cause inequities among Asian American children This book is key reading for early childhood education researchers professors and graduate students to become more productively engaged in discussions and practices toward racial justice **Policing Black Lives, Revised and Expanded Edition** Robyn Maynard, 2025-10-15T00:00:00Z The bestselling first edition of *Policing Black Lives* became a mainstay of bookshelves and classrooms across North America and Europe as the first comprehensive account of the state sanctioned surveillance criminalization and punishment of Black lives in Canada This revised and expanded edition updates the original text in the

wake of global Black uprisings in 2020 and offers new insights on how to build liveable futures without policing Delving behind Canada's veneer of multiculturalism and tolerance award winning scholar and activist Robyn Maynard traces the afterlives of slavery across multiple institutions Maynard sheds light on the state's role in perpetuating colonial dispossession racial profiling police killings incarceration immigration detention deportation exploitative migrant labour practices disproportionate child removal and the school to prison pipeline as well as the ubiquity of Black resistance The first new chapter meticulously documents how half a century of police reforms have served to undermine Black freedom struggles while expanding the scope and scale of policing in Canadian society In the second Maynard advances a compelling vision for making policing obsolete and building new forms of safety
