Birds Do The Strangest Things Step Ups:

Birds Do the Strangest Things Leonora Hornblow, Arthur Hornblow, 1991 Describes twenty two birds with unusual habits or characteristics including the ostrich kiwi honey guide and hornbill I Can Read It All by Myself Paul V. Allen, 2021-05-28 In the late 1950s Ted Geisel took on the challenge of creating a book using only 250 unique first grade words something that aspiring readers would have both the ability and the desire to read The result was an unlikely children s classic The Cat in the Hat But Geisel didn t stop there Using The Cat in the Hat as a template he teamed with Helen Geisel and Phyllis Cerf to create Beginner Books a whole new category of readers that combined research based literacy practices with the logical insanity of Dr Seuss The books were an enormous success giving the world such authors and illustrators as P D Eastman Roy McKie and Stan and Jan Berenstain and beloved bestsellers such as Are You My Mother Go Dog Go Put Me in the Zoo and Green Eggs and Ham The story of Beginner Books and Ted Geisel s role as president policymaker and editor of the line for thirty years has been told briefly in various biographies of Dr Seuss but I Can Read It All by Myself The Beginner Books Story presents it in full detail for the first time Drawn from archival research and dozens of brand new interviews I Can Read It All by Myself explores the origins philosophies and operations of Beginner Books from The Cat in the Hat in 1957 to 2019 s A Skunk in My Bunk and reveals the often fascinating lives of the writers and illustrators who created them **Along Those Lines** Peter Cashwell, 2014-04-09 Intellectual reveling at its finest Booklist A delightful and curious book about borders boundaries fences and lines Slate A thoughtful and entertaining look at the demarcations in our lives Times Dispatch After years of crossing borders in search of new birds and new landscapes Peter Cashwell s exploration of lines between states between time zones and between species led him to consider the lines that divide genders seasons musical genres and just about every other aspect of human life His conclusion Most had something in common they were largely imaginary Nonetheless Along Those Lines a tour of the tangled world of delineation attempts to address how we distinguish right from wrong life from death Democrat from Republican and how the lines between came to be Part storyteller part educator and part wise guy Cashwell is unafraid to take readers off the beaten path into the desert vistas of the Four Corners the breeding ground of an endangered warbler or the innards of a grand piano Something amusing and or insightful awaits at every stop And he s not alone The tricks and treats of the human instinct for drawing lines are revealed in interviews with experts of all sorts Learn about the use of the panel border from a Hugo Award winning comics creator Trace the edge of extinction with the rediscoverer of the Ivory billed Woodpecker Get the truth about the strike zone from an umpire who holds a degree in physics You ll begin to see even the most familiar lines in a whole new way From music to politics to gender splits the things that divide us also tell us quite a bit about who we are and how we got there You couldn t ask for a better guide than Peter Cashwell whose eloquent musings on the lines we draw and sometimes erase is illuminating fascinating and impossible to put down Caroline Leavitt If as Paul Klee told his students at the Bauhaus a line is a dot that goes for a walk then Along Those

Lines is a beguiling and personal treasury of dots on hikes treks and walkabouts To accept this invitation to meander through the author s territory of boundaries borders definitions demarcations and delineations is to be rewarded with surprising answers to questions you didn t know you had until now about everything under the sun from strike zones musical genres and Gerrymandering to birding gender and how different religions define the lines between right and wrong Peter Cashwell s appreciation of the boundaries that create our world is a pure delight Katharine Weber As if by magic Cashwell gives us the power to see the invisible lines we live by and perhaps more importantly the permission to smudge erase dissolve or redraw the lines that don t serve us well Along Those Lines is an imaginative and well researched book full of Cashwell s trademark imagination and humor Even the most edgy rule bound readers will come away enlightened and liberated His footnotes alone could open Saturday Night Live Maria Mudd Ruth Peter Cashwell has written a brilliant mind bending saga of delineation as a supreme act of imagination as a noble and often comic attempt to confine the raggedy universe within a geometer s desperate dreams of precision Will Blythe Meet Robert E Lee George W.S.
