Birth Without Doctors Conversations With Traditional Midwives:

Birth Without Doctors Jacqueline Vincent-Priya,2013-11-05 Most women giving birth in rural communities throughout the Third World cannot enjoy the benefits of modern medical assistance They are usually too expensive and too far away This book is the result of journeys and conversations between the author traditional midwives and mothers which took place over several years in Malaysia and Indonesia It describes traditional birthing practices and the communities in which they have arisen For normal births the safety record is impressive but so too is the reassurance of ritual and the incorporation of birthing into family and society It is interesting to discover that many practices are based not only on religious understandings but also on sound herbal medical precautions The book s point is not merely to demonstrate the skill of the traditional midwives nor even to challenge what seems to be the medical view that pregnancy is an illness but to give an insight into worlds where barefoot midwifery is the norm Originally published in 1991 *Birth without doctors* Jacqueline Vincent Priva,2013 *Childbirth, Midwifery and Concepts of Time* Christine McCourt,2009-09-01 All cultures are concerned with the business of childbirth so much so that it can never be described as a purely physiological or even psychological event This volume draws together work from a range of anthropologists and midwives who have found anthropological approaches useful in their work Using case studies from a variety of cultural settings the writers explore the centrality of the way time is conceptualized marked and measured to the ways of perceiving and managing childbirth how women midwives and other birth attendants are affected by issues of power and control but also actively attempt to change established forms of thinking and practice The stories are engaging as well as critical and invite the reader to think afresh about time and about reproduction

Emotions in Midwifery and Reproduction Billie Hunter,Ruth Deery,2008-10-28 With contributions from a range of leading international authors this stop and make you think book explores the many contemporary issues surrounding emotion work in reproductive healthcare The editors forerunners in their field have brought together both theoretical and clinical aspects to challenge readers to consider the significance of this important topic in their day to day work Using examples of maternity care and infertility settings from the UK and beyond and with an emphasis on personal reflection throughout the book explores the subjects of Emotional well being Client practitioner relationships Infertility Loss Breast feeding Motherhood Emotions in Midwifery and Reproduction underlines the importance of emotions and how they are managed experienced and negotiated in clinical settings addressing issues that are frequently overlooked in the drive for efficiency and effectiveness in the health service It is stimulating reading for all midwifery and nursing students and practitioners looking to understand their patients and their own emotional needs

Midwifery and the Medicalization of Childbirth Edwin R. Van Teijlingen,2004 This book provides an introduction to the sociological study of midwifery The readings have been selected to highlight the interplay between midwifery and medicine reflecting the medicalization of childbirth It highlights the major themes in both a historical and a current context as well as western and non western

societies Two major themes underlie the organization of this book that the conception of midwifery must be broadened to encompass a sociological perspective and that the ongoing trend toward the medicalization of midwifery is crucial to an understanding of the historical current and future status of midwifery By medicalization of childbirth and midwifery the author mean the increasing tendency for women to prefer a hospital delivery to a home delivery the increasing trend toward the use of technology and clinical intervention in childbirth and the determination of medical practitioners to confine the role played by midwives in pregnancy and childbirth if any to a purely subordinate one *National Library of Medicine Current Catalog* National Library of Medicine (U.S.),1993 Traditional Birthing Practices of Nyuh Kuning, Gianyar Regency, Bali, Indonesia Gina M. Farber,1998 Midwives Chronicle and Nursing Notes ,1992 Women and Environments ,1991 Resurgence ,1991 **Mwana Ndi Mai** Gurli Hansson,1996 **New Books on Women and Feminism** ,1991 **New Internationalist** ,1991 *Feeding Our Babies* Jacqueline Vincent Priya,Priya Vincent,1999 This text explores the relationship between traditions of birth and traditions of breastfeeding around the world It describes the variety of infant feeding patterns internationally and puts into a broader context the advice given to mothers in the United Kingdom and similar countries **Whitaker's Book List** ,1991 **Gender & Behaviour** ,2003 People ,1992 *Independent Scholars of Asia, Inc* ,1990 *Feminist Bookstore News* ,1993 *Midwives* ,1995
