The American Musical Landscape Richard Crawford, 2000-06-30 This book reflects a breakthrough in American music studies an unrecognized field among traditional musicologists until the past few decades during which enormous progress has been made in documenting three centuries of American musical activities and figures Time and effort had to be expended exclusively on the development of basic historical studies The time has come for a new phase one that can take a creative interpretive approach Professor Crawford s study will introduce this higher level of scholarship into the field of American music studies Vivian Perlis author of Charles Ives Remembered A major statement by a senior scholar on what American musicology is all about These themes are also topical they come at a time when much more research is being done in American music but little thought is being given to the big picture the vision the philosophy and the implications of historical research Now is the time for a synthesis and there are few scholars better equipped to do that in American music than Richard Crawford Michael Broyles author of Music of the Highest Class *The Emotional Sides of My Story* Tricia Fowler, 2019-11-22 *The Emotional Sides of My Story* By Tricia Fowler *The Emotional Sides of My Story* is about how mental

and sexual abuse can lead a person to believe that they are worthless Fowler through her own experiences as a survivor of abuse hopes to show anyone struggling in life that regardless of what they have been told or how they have been treated that they do matter and do deserve happiness She believes that life doesn't start until you decide to live it She hopes to show people that they alone can control how they feel about themselves and they alone can decide their worth as a person
