Black Athena Revisited:

Black Athena Revisited Mary R. Lefkowitz, Guy MacLean Rogers, 2014-03-24 Was Western civilization founded by ancient Egyptians and Phoenicians Can the ancient Egyptians usefully be called black Did the ancient Greeks borrow religion science and philosophy from the Egyptians and Phoenicians Have scholars ignored the Afroasiatic roots of Western civilization as a result of racism and anti-Semitism In this collection of twenty essays leading scholars in a broad range of disciplines confront the claims made by Martin Bernal in *Black Athena The Afroasiatic Roots of Classical Civilization* In that work Bernal proposed a radical reinterpretation of the roots of classical civilization contending that ancient Greek culture derived from Egypt and Phoenicia and that European scholars have been biased against the notion of Egyptian and Phoenician influence on Western civilization The contributors to this volume argue that Bernal's claims are exaggerated and in many cases unjustified Topics covered include race and physical anthropology the question of an Egyptian invasion of Greece the origins of Greek language philosophy and science and racism and anti-Semitism in classical scholarship In the conclusion to the volume the editors propose an entirely new scholarly framework for understanding the relationship between the cultures of the ancient Near East and Greece and the origins of Western civilization The contributors are John Baines professor of Egyptology University of Oxford Kathryn A Bard assistant professor of archaeology Boston University C Loring Brace professor of anthropology and curator of biological anthropology in the Museum of Anthropology University of Michigan John E Coleman professor of classics Cornell University Edith Hall lecturer in classics University of Reading England Jay H Jasanoff Jacob Gould Schurman Professor of Linguistics Cornell University Richard Jenkyns fellow and tutor Lady Margaret Hall Oxford and university lecturer in classics University of Oxford Mary R Lefkowitz Andrew W Mellon Professor in the Humanities Wellesley College Mario Liverani professor of ancient near eastern history Universit di Roma La Sapienza Sarah P Morris professor of classics University of California at Los Angeles Robert E Norton associate professor of German Vassar College Alan Nussbaum associate professor of classics Cornell University David O Connor professor of Egyptology and curator in charge of the Egyptian section of the University Museum University of Pennsylvania Robert Palter Dana Professor Emeritus of the History of Science Trinity College Connecticut Guy MacLean Rogers associate professor of Greek and Latin and history Wellesley College Frank M Snowden Jr professor of classics emeritus Howard University Lawrence A Tritle associate professor of history Loyola Marymount University Emily T Vermeule Samuel E Zemurray Jr and Doris Zemurray Stone Radcliffe Professor Emerita Harvard University Frank J Yurco Egyptologist Field Museum of Natural History and the University of Chicago

[Heresy in the University](#) Jacques Berlinerblau, 1999 One of the most controversial books to come out of the academy in the last fifteen years is Martin Bernal's *Black Athena* It has been a true cause celebre Afrocentrists have both praised the book and claimed that Bernal stole from the work of black scholars to create his study of the Afroasiatic roots of classical civilization Classicists feel passionately about what they perceive as an attack from an

outsider on the origins not only of ancient Greece but of their own discipline It seems that everyone has something to say about the book the question is how many really understand it In Heresy in the University Jacques Berlinerblau provides an exegesis of the contents of Black Athena making it accessible to a wider audience As he clarifies and restates Bernal s opus Berlinerblau identifies Bernal s flaws in reasoning and gaps in evidence He cuts to the heart of Bernal s prose singling out the key points of Bernal s argument explaining and arranging them in a cogent manner Berlinerblau addresses the critics really important objections including his own and links each of them to the appropriate substantive argument in Black Athena He goes beyond simple summary and exposition to present the underlying stated and unstated agendas of Bernal and his critics Ultimately he exposes both sides and asks what the flawed reasoning from all concerned reveals about the stakes in this key academic dispute and what that in turn says about the modern academy Jacques Berlinerblau is an assistant professor and director of Judaic studies at Hofstra University

Black Athena Comes of Age Wim M. J. van Binsbergen, 2011 With the publication in 1996 of the devastatingly critical Black Athena revisited eds Mary Lefkowitz Guy MacLean Rogers the impression was created that the Black Athena thesis had been conclusively refuted However the present collection has sought to restore the balance Bernal himself has contributed three innovative and illuminating pieces to the collection responding to critics systematising his linguistic claims and applying the Black Athena thesis to sub Saharan Africa By offering answers to the above questions the collection has sought to take the international debate to the next constructive phase It shows that incisive and multifarious criticism of Bernal s position and methods is necessary and often justified Yet at the turn of the 21st century the formulation of a non Eurocentric multicentric model of global cultural history is of vital importance It is here that Martin Bernal shows the way as none before him Specifically his vision s implications for sub Saharan Africa constitute a major intellectual challenge Stressing massive intercontinental interactions and vital global contributions of the African peoples they also invite us to redress the present day negative image of Africa Black Athena Alive was first published in 1997 under the title Black Athena Ten Years After 1997 An added chapter takes the discussion into the third millennium and particularly reflects on Berlinerblau s 1999 sociological contribution to the debate Heresy in the University

Black Athena Comes of Age , **The End of the West and Other Cautionary Tales** Sean Meighoo, 2016-04-19 Most historical accounts of the West take it for granted that the guiding principles of the Western tradition reason progress and freedom have been passed down directly from ancient Greece to modern Europe evolving in isolation from all non Western cultures Today many political analysts and cultural critics maintain that the Western tradition is fast approaching its end for better or worse as it becomes more and more integrated with non Western cultures in an increasingly globalized world But what if we are witnessing something else entirely not the end of the West but rather another historical mutation of the idea of the West itself This groundbreaking work shows that whether the West is hailed as the source of all historical progress or scorned as the root of all cultural imperialism it remains a deeply problematic concept

that is intrinsically connected to an ethnocentric view of the world In a critical reading of the continental philosophers Husserl Heidegger Levinas and Derrida as well as the postcolonial thinkers Said Mohanty Bhabha and Trinh Sean Meighoo strikes at the intellectual foundations of Western exceptionalism until its ideological supports show through Deconstructing the concept of the West in his provocative interpretations of Martin Bernal s controversial publication *Black Athena* and the Beatles second film *Help* Meighoo poses a formidable question to philosophers writers political analysts and cultural critics alike Can we mount an effective critique of Western ethnocentrism without reinforcing the very idea of the West

Black Athena Writes Back Martin Bernal,2001-09-20 This book is Bernal s response to criticisms to his 1987 book *BLACK ATHENA* which argued for an Afro Asiatic origin for Greek civilization

Race Denise Eileen McCoskey,2021-03-25 How do different cultures think about race In the modern era racial distinctiveness has been assessed primarily in terms of a person s physical appearance But it was not always so As Denise McCoskey shows the ancient Greeks and Romans did not use skin colour as the basis for categorising ethnic disparity The colour of one s skin lies at the foundation of racial variability today because it was used during the heyday of European exploration and colonialism to construct a hierarchy of civilizations and then justify slavery and other forms of economic exploitation Assumptions about race thus have to take into account factors other than mere physiognomy This is particularly true in relation to the classical world In fifth century Athens racial theory during the Persian Wars produced the categories Greek and Barbarian and set them in brutal opposition to one another a process that could be as intense and destructive as black and white in our own age Ideas about race in antiquity were therefore completely distinct but as closely bound to political and historical contexts as those that came later This provocative book boldly explores the complex matrices of race and the differing interpretations of ancient and modern across epic tragedy and the novel Ranging from Theocritus to Toni Morrison and from Tacitus and Pliny to Bernal s seminal study *Black Athena* this is a powerful and original new assessment

Race and Ethnicity Rodney D. Coates,2004-01-01 This edited volume provides a critical re appraisal of race and ethnicity through a multi disciplinarian geographically varied and historically diverse set of lenses This approach allows for a resituation and recontextualization of our understanding of race ethnicity and the processes by which and through which they change

History Lesson Mary R. Lefkowitz,2008-10-01 In the early 1990s Classics professor Mary Lefkowitz discovered that one of her faculty colleagues at Wellesley College was teaching his students that Greek culture had been stolen from Africa and that Jews were responsible for the slave trade This book tells the disturbing story of what happened when she spoke out Lefkowitz quickly learned that to investigate the origin and meaning of myths composed by people who have for centuries been dead and buried is one thing but it is quite another to critique myths that living people take very seriously She also found that many in academia were reluctant to challenge the fashionable idea that truth is merely a form of opinion For her insistent defense of obvious truths about the Greeks and the Jews Lefkowitz was embroiled in turmoil for a decade She faced institutional indifference angry colleagues reverse racism

anti-Semitism and even a lawsuit intended to silence her. In History Lesson Lefkowitz describes what it was like to experience directly the power of both postmodernism and compensatory politics. She offers personal insights into important issues of academic values and political correctness and she suggests practical solutions for the divisive and painful problems that arise when a political agenda takes precedence over objective scholarship. Her forthright tale uncovers surprising features in the landscape of higher education and an unexpected need for courage from those who venture there.

Black Athena Martin Bernal, 2020-02-14 Winner of the 1990 American Book Award. What is classical about Classical civilization? In one of the most audacious works of scholarship ever written, Martin Bernal challenges the foundation of our thinking about this question. Classical civilization, he argues, has deep roots in Afroasiatic cultures. But these Afroasiatic influences have been systematically ignored, denied, or suppressed since the eighteenth century, chiefly for racist reasons. The popular view is that Greek civilization was the result of the conquest of a sophisticated but weak native population by vigorous Indo-European speakers, Aryans from the North. But the Classical Greeks, Bernal argues, knew nothing of this Aryan model. They did not see their institutions as original but as derived from the East and from Egypt in particular. In an unprecedented tour de force, Bernal links a wide range of areas and disciplines: drama, poetry, myth, theological controversy, esoteric religion, philosophy, biography, language, historical narrative, and the emergence of modern scholarship.

Black Athena (3 Vol Set) Martin Bernal, 2020-02-14. *Black Athena*, an audacious three-volume series, strikes at the heart of today's most heated culture wars. Martin Bernal challenges Eurocentric attitudes by calling into question conventional explanations for the origins of classical civilization. Provocative, passionate, and colossal in scope, this thoughtful rewriting of history continues to stir academic and political controversy. This is a complete set of all three volumes, shrink-wrapped.

Merlin's Secret Robert N. List, 1999-05-20. *Merlin's Secret* reopens the debate involving the diffusionist proposal of the non-Aryan, East African, Egyptian, North African, and Near Eastern origins of early Britons who inhabited the British Isles from the Neolithic period to the arrival of the Anglo-Saxons. It also questions the possibility of mixed African, Asiatic, and European origins for the numerous Moorish immigrants, Gypsies, and other Norman families who arrived during the Middle Ages and the Renaissance. Robert N. List not only follows the work of numerous scientists, anthropologists, historians, linguists, poets, and ethnologists who have argued the case for non-Aryan and mixed Aryan origins of many inhabitants, but examines the emergence of a cometary religion in the early British Isles. He proposes a new synthesis of the evidence of Afroasiatic cultural imports that influenced language, art, and religion in the early British Isles. This revisionist synthesis brings together evidence that should stimulate a complete reexamination of the ethnic complexity of the British Isles.
