## Chinese Translations:

Translations from Modern Chinese Friedrich W. K. Otte, 1926      **A Catalogue of the Chinese Translation of the Buddhist Tripitaka** Bunyiu Nanjio, 1883      **Fifty Lessons in English Conversation, with Chinese Translations** Shiyi Zhang, 1913      **Twentieth-century Chinese Translation Theory** Tak-hung Leo Chan, 2004-01-01

Past attempts at writing a history of Chinese translation theory have been bedeviled by a chronological approach which often forces the writer to provide no more than a list of important theories and theorists over the centuries Or they have stretched out to almost every aspect related to translation in China so that the historical political backdrop that had an influence on translation theorizing turns out to be more important than the theories themselves In the present book the author hopes to devote exclusive attention to the ideas themselves The approach adopted centers around eight key issues that engaged the attention of theorists through the course of the twentieth century in the hope that a historical account will be presented that is not time bound On the basis of 38 articles translated into English by teachers and scholars of translation the author has written four essays discussing the Chinese characteristics of this body of theory Separately they focus on the impressionistic the modern the postcolonial and the poststructuralist approaches deployed by leading Chinese theorists from 1901 to 1998 It is hoped that publication of this book will make possible cross cultural dialogue with translation academics in the West although the general reader will find much firsthand information on Chinese thinking about translation      **Chinese Translations**, 1967

Corpus-Based Studies of Translational Chinese in English-Chinese Translation Richard Xiao, Xianyao Hu, 2015-07-16 This book takes a corpus based approach which integrates translation studies and contrastive analysis to the study of translational language It presents the world's first balanced corpus of translational Chinese which in combination with a comparable native Chinese corpus provides a reliable empirical basis for a comprehensive account of the macro statistic lexical and grammatical features of translational Chinese in English to Chinese translation a significant contribution to Descriptive Translation Studies The research findings based on these two distinctly different languages have important implications for universal translation research on the European tradition      **An Overview of Chinese Translation Studies at the Beginning of the 21st Century** Weixiao Wei, 2019-09-17

An Overview of Chinese Translation Studies at the Beginning of the 21st Century presents and analyses over 100 000 bibliographic notes contained within a large academic database focusing on translation within China Exploring Chinese translation studies two decades before and after the year 2000 the book will introduce aspects of theory culture strategy register genre and context to the field of translation in China and will also take into account the impact of technology education and research within this field Aimed at postgraduate students and researchers of translation studies the focus of An Overview of Chinese Translation Studies at the Beginning of the 21st Century is the theory and practice of translation studies within a fast paced and growing academic discipline      **Chinese Buddhism** Edkins, 1879      **Chinese Affairs ...**, 1907      Chinese Buddhism Joseph Edkins, 1893      **A Catalogue of**
