world's second largest economy has accomplished as well as what work remains to be done. As economic development in China for the last 30 years has been mostly top down, this text focuses on the macroeconomic and monetary sides of the economy. Utilising case studies throughout the book, it uses not only the traditional macroeconomics tools in explaining the Chinese economy but also takes a novel approach by assessing China as a company. Through employment of models from finance such as cash flows and valuations, the text is able to dig deeper into understanding the fundamental characteristics of the Chinese economy. The book also presents extremely useful analysis of the comparisons and contrasts between Chinese economic activity and that of the U.S. economy. eResources including chapter questions with solutions and lecture slides will be available on this webpage.

*Chinese Labor in a Korean Factory* Jaesok Kim, 2013-04-10. Chinese Labor in a Korean Factory draws on fieldwork in a multinational corporation (MNC) in Qingdao, China, and delves deep into the power dynamics at play between Korean management, Chinese migrant workers, local level Chinese government officials, and Chinese local gangs. Anthropologist Jaesok Kim examines how governments to attract MNCs relinquish parts of their legal rights over these entities while MNCs also give up portions of their rights as proxies of global capitalism by complying with local government guidelines to ensure infrastructure and cheap labor. This ethnography demonstrates how a particular MNC struggled with the pressure to be increasingly profitable while negotiating the clash of Korean and Chinese cultures, traditions, and classes on the factory floor of a garment corporation. *Chinese Labor in a Korean Factory* pays particular attention to common features of post-socialist countries. By analyzing the contentious collaboration between foreign management, factory workers, government officials, and gangs, this study contributes not only to the research on the politics of resistance but also to how global and local forces interact in concrete and surprising ways.

**Mao's Generals Remember Korea** Xiaobing Li, Allan Reed Millett, Bin Yu, 2001. Fifty years after the Korean conflict, what is a forgotten war for some Americans is an aching memory for China. With over a million casualties out of the three million soldiers sent into battle, that war looms as large for the People's Republic of China (PRC) barely a year old when North Korea invaded the South as World War II does for most other countries. It was the first international war fought by the Chinese Communist regime to halt counterrevolution; it was also a war that the Chinese fully expected to win by virtue of not only superiority of numbers but also their soldiers' superior political quality. This book presents a mosaic of memoirs by key Chinese military commanders from that war, drawing not only on their personal papers but also on still-classified archives and on Chinese language sources unavailable in English. It offers an uncensored, behind-the-scenes story of the Communist campaign from the decision to intervene through the truce negotiations that disclose new information on such facets of the war as strategy and tactics, use of propaganda and mobilization of the Chinese population. It also reveals the generals' concerns about the possible use of nuclear force and the alleged use of biological and chemical weapons by the United States. The book contains a wealth of new materials on the Chinese intervention, including combat operations, logistics, political control, field command, and

communications Among those whose recollections are recorded then acting Chief of Staff Nie Rongzhen reveals how party leadership decided on intervention Commander in Chief Peng Dehuai provides personal accounts of major battles and communications with Mao and General Yang Dezhi shares secrets of Chinese military strategy and tactics discussing how the army orchestrated each battle to contend with the better equipped UN forces The volume also features an updated short history of the PRC s conduct of the war based on Chinese sources plus rare photos from Chinese archives that put readers behind the lines from the Chinese side Mao s Generals Remember Korea demonstrates that the PRC continues to draw military diplomatic and strategic lessons from the war it fought fifty years ago with the world s most powerful military force It offers valuable insight into the Chinese way of war and the military mind of Mao that will be a rich resource for Asian and military scholars
