China's Foreign Investment Law Amid Evolving International Investment Rules Qingjiang Kong, 2023-08-28. This book focuses on an article-by-article interpretation of the Foreign Investment Law of the People's Republic of China, which was adopted on March 15, 2019. It also describes the legislative process of the law and the relationship between the law and other laws and regulations. It also includes a comparison of China's new foreign investment law with representative foreign investment regimes and the interaction between China and evolving international investment rules and the law, with a focus on the impact of evolving international investment rules on the development of China's foreign investment regime. In recent years, the momentum of globalization has continued to grow, and a pattern of economic governance with valorization, regionalization, and benefit sharing has gradually emerged. Amid the emergence of new international investment rules, the Foreign Investment Law of the People's Republic of China, adopted on March 15, 2019, has significantly changed the face of China's foreign investment regime. Given that China is a major destination for global foreign direct investment flows, its foreign investment regime is a focus of attention for international investors and international lawyers. This book aims to provide a practical legal guide for students of Chinese law, especially Chinese business law practitioners and their clients interested in the Chinese market, and observers of international investment law and national investment law practice.

The Yale Journal of International Law, 1996. *China and US Foreign Investment Laws and Practices* Liu Ziyu, 2024-11-08. The book is a comparative study of the national security review of foreign investment laws in China and the US. The author establishes a theoretical framework to explain the dominant role of ideas on national security and foreign investment rooted in China and the US, as well as the oriented role of China-US investment interaction. She concludes that it is difficult for China and the US to reach a consensus on national security review due to their different internal ideas on national security and foreign investment. By comparing the similarities and differences in the development of national security review in China and the US, she also proposes a feasible approach to facilitate bilateral investment practices. The book will attract scholars of international economic law, investment law, and Sino-US relations.

China Policy Richard E. Edwards, 1995. **Northwestern Journal of International Law & Business**, 2005. *Chinese Banking Law and Foreign Financial Institutions* Zhongfei Zhou, 2001-03-12. If China is to develop a modern and viable banking sector, it needs to put in place a suitable legal infrastructure which is consistent with emerging international supervisory standards, WTO requirements, and aspirations for financial sector liberalisation. The author argues that current foreign banking laws are fundamentally out of line with international standards and practices, and that legislators and

supervisors do not appreciate or cultivate commonly accepted supervisory values This book proposes a set of reforms that would at the same time create a legal environment for competitive equality between foreign banks and protect the Chinese banking system The issues considered include the licensing process for the entry of foreign banks into the Chinese market the ongoing regulation of foreign banks and foreign bank crisis management or bank failure resolution The author offers a proposed framework of Chinese foreign banking law which should be of great benefit to existing and prospective foreign banks in China *China's Foreign Investment Law in the New Normal* Shen Wei,2022-12-29 This book analyzes China's new foreign investment law which came into force in January 2020 The new law implemented sweeping changes and overhauled China's foreign investment law regime of the last four decades The foreign investment law aims to make the business environment more investor friendly and address some of the contentious issues between US and China in the ongoing trade war The book explains how the law enhances regulatory transparency It also outlines the new approval process that is the pre-establishment negative list system which has replaced the former approval system for foreign investment projects The book also analyzes China's series of anti-sanction laws This book will help give readers a better understanding of major changes and benefits under the new law and will be the first of its kind looking at the implications of this important law
