Chinese Language Learning For Foreigners I:

Chinese Language Education in the United States Jiening Ruan, Jie Zhang, Cynthia B. Leung, 2015-11-10 This book offers historical philosophical and sociocultural perspectives on Chinese language education for speakers of other languages with a special focus on Chinese language education in the United States It provides a comprehensive cross disciplinary look at changes in CFL CSL education over time in China and the U S and the philosophical political and sociocultural influences that led to these changes The essays address a wide array of topics related to Chinese language education including A historical overview of the field Theories that apply to CFL CSL learning Policies and initiatives for CFL CSL by the Chinese and U S governments Medium of instruction Curriculum and instruction for CFL CSL learners at K 12 and college levels Technology for CFL CSL education Chinese language learning for heritage learners CFL in study abroad contexts CFL teacher education and training This work is essential reading for scholars and students interested in gaining a greater understanding of Chinese language education in the two countries and around the world *Learning English and Chinese as Foreign Languages* Wen-Chuan Lin, 2019-09-19 Learning English and Chinese is becoming increasingly important to the prospects of young people This book compares English as a Foreign Language teaching in Taiwan with Chinese as a Foreign Language education in England in order to highlight how classroom activities are embedded within multiple settings including ethnic or other social group cultures family and community resources and school visions or goals The book illustrates how in Taiwan different ethnic groups recognise access and value English language learning to varying extents Its findings illuminate why some ethnic groups are highly motivated to learn English and are able to gain privileged economic positions in the job market In England access to Chinese is marked by social class and the book argues that this could augment an educational apartheid that already exists in language teaching in secondary schools thereby exacerbating existing inequality [Chinese Language Learning for Foreigners](#) Yang Tiange, 1993-01-01 [The Field of Chinese Language Education in the U.S.](#) Vivian Ling, 2018-02-13 This book will be the first account of the development of Chinese as a foreign language in the U S as it interacts with the relevant entities in China and beyond There are virtually no systematic retrospective reflections on the field outside of the greater China region and yet over the past decades the field has grown by leaps and bounds and it is critical now that we pause to reflect on what has happened and what we can learn from the past The contributors are among some of the most influential pioneers in the field whose entire academic lives have been dedicated to its development *The Field of Chinese Language Education in the U S A Retrospective of the 20th Century* is aimed at those who are currently engaged in Chinese language education as teachers or as students **Researching Chinese Language Education** Mark Shiu-kee Shum, Peter Mican, 2018-09-13 The culmination of more than a decade of research this compelling volume offers a fresh approach for applying functional linguistics to assess student performance to inform the teaching and learning of Chinese and to design curriculum and teaching materials Documenting authentic

systemic functional linguistics SFL studies in researching and teaching Chinese as a first or second language this research is set in the multilingual settings of Hong Kong and Australia The experiences of SFL and genre teaching in English have been well demonstrated as valid viable and practical in different contexts however this volume covers the relatively new domain of research into the applications of SFL to the teaching of Chinese Using SFL as the research framework the authors cover three major areas in Chinese language education effective pedagogies curriculum and material design and text analysis Covering major local curriculum reforms and the rapid growth of International Baccalaureate programmes worldwide this book will be of interest to linguists language teachers and teacher educators and those involved in the teaching and learning of Chinese around the world

Pedagogic Practices, Student Engagement and Equity in Chinese as a Foreign Language Education Wen Xu, 2021-12-27 This book explores and analyses Chinese as a Foreign Language CFL pedagogic practices and learning experiences within a cohort of low socio economic status students within an Australian primary classroom It demonstrates that in spite of policy and educational discourses underpinning Asian literacies Chinese teaching and learning is a fragile undertaking in Australian schooling The politicisation of CFL education especially in the post COVID 19 era has exacerbated public stereotypes concerning racism and multiculturalism in Australia today Drawing upon Bernstein s theorisation and engagement framework Wen Xu sketches out CFL education as a democratic space where power and control relations can be deliberately operated to reinforce engaging learning experiences She suggests that pedagogic interventions in the name of social justice have the potential to make consequential differences in disadvantaged students life trajectories and CFL education can be envisioned as an avenue towards socioeconomic mobility instead of being criticised as a platform opposing to liberal ideas In turn she provides insights into teaching younger age CFL learners in the global context in terms of the structuring of pedagogy and curriculum Wen Xu s research will be of interest to students and scholars in sociology of education student engagement pedagogy and curriculum CFL education and languages education as well as pre service teachers and practitioners who teach Chinese as a Foreign Language
