The Opium Wars Hourly History, 2018-12-05 Opium Wars Violent confrontation between armed groups over the supply of illegal narcotics is something we commonly associate with criminal gangs in modern cities but in the mid nineteenth century Great Britain went to war with Imperial China in order to continue to supply Chinese addicts with opium The two wars which followed have become known as the Opium Wars and they led to the utter defeat of China the establishment of a British colony in Hong Kong and the continuation of a narcotics trade that was worth millions of pounds each year to the British The Opium Wars exposed the weaknesses of the Chinese Qing dynasty in terms of its military abilities and internal corruption They also exposed divisions in Victorian Britain where people were beginning to question the morality of going to war to support an illegal narcotics trade which caused misery and death for millions of Chinese In the end the British were able to overcome their reservations and prosecuted these two wars with great success British casualties were small and the gains enormous the British opium trade to China would continue for more than fifty years after the end of the Second Opium War Inside you will read about The Opium Outbreak of the First Opium War British Superiority and the Devil Ship The Treaty of Nanking First of the Unequal Treaties The Inevitable Second Opium War The Fall of Beijing And much more For the Chinese Qing dynasty the Opium Wars marked the beginning of the end Imperial China had endured for two thousand years but within fifty years of the humiliations of the Opium Wars a revolution overthrew the imperial court and turned China into a

republic Although they are little remembered today the Opium Wars changed the face not just of China but also of the whole of Asia This is the story of those wars

The first Opium War and its impacts on China Cornelia Andree,2013-02-26 Seminar paper from the year 2012 in the subject History Asia grade 1 0 The University of Hong Kong language English abstract Before 1839 China was closed for Western trader The only Chinese port where highly controlled trade between Western merchants and the governmental appointed merchants Gong Hang was allowed was Canton Guangzhou Western merchants had to live in separated districts of Canton could not stay there more than a few months and were prohibited to bring their families or to have contact with Chinese except in trade Furthermore Western traders could not contact Chinese officials directly and there were no formal diplomatic relations between China and Western countries Why did China seal off itself from Western trade so extremely

The India-China Opium Trade in the Nineteenth Century Hunt Janin,1999-01-01 From 1823 to 1860 a fleet of small fast brigs and schooners carried chests of opium from India to China often facing the challenges of pirates and typhoons along the way This shadowy trade conducted by American British and Indian firms thrived despite its moral and legal consequences Drawing largely on primary sources the story of the opium trade comes through in the voices of those who saw it firsthand Appendices describe a favorite shipboard recipe two of the ships involved in the trade and their crews excerpts from accounts of the Opium War and language equivalents for proper and place names A bibliography is included and maps and photographs help illumine this important and unusual period of history

China from the Opium Wars to the 1911 Revolution Jean Chesneaux,Marianne Bastid,Marie-Claire Bergère,1977 *The First Opium War - The Chinese Expedition 1840-1842 - The Illustrated Edition* Duncan McPherson,2013-02-01 The first Anglo Chinese War of 1839 1842 was fought essentially over trade restrictions between the British Empire and the Qing Dynasty European traders were only permitted to sell through a cartel of Chinese merchants known as the Thirteen Hongs and were not allowed to travel live or

trade in any other part of China apart from the Thirteen Factories in Canton Due to the ever growing demands of the home market for tea and China's insistence on payment in silver a trade imbalance in China's favour developed and so the British via the East India Company began to trade in opium Initially the Chinese authorities tolerated this but in 1839 the new governor of Canton seized all the opium banned its sale under threat of death and closed the channel to Canton effectively holding the British traders hostage The resulting retaliation from the British was somewhat delayed but in April 1840 the Chinese Expedition a force of 3000 soldiers and a small naval force arrived in Singapore After decisively defeating the Chinese in the summer 1842 the war finally ended with the signing of the Treaty of Nanking and the ceding of Hong Kong to the British Crown Fully illustrated throughout with contemporary paintings engravings and maps this authoritative eye witness account of the First Opium War was written by Duncan McPherson a surgeon with the 37th Madras Native Infantry Highly readable McPherson's vivid descriptions of China and its people and his detailed accounts of the battles give a unique perspective to the conflict Also included is an in depth appendix featuring the official battle reports general orders circulars notifications and returns of the dead and wounded

[Opium Wars](#) Michael Davis, AI, 2025-03-20 *Opium Wars* explores the 19th century conflicts between Great Britain and China revealing how the opium trade ignited a war that reshaped global trade and power dynamics The book delves into the historical context highlighting Britain's insatiable desire for Chinese goods like tea silk and porcelain and China's limited demand for British products This trade imbalance led the British East India Company to cultivate and export opium from India to China resulting in widespread addiction and ultimately war The book argues that the Opium Wars were about more than just opium they represented Britain's determination to impose free trade on China even at the expense of Chinese sovereignty and public health The book examines the First and Second Opium Wars focusing on military strategies key battles and the resulting treaties such as the Treaty of Nanking which ceded Hong Kong to Britain By utilizing primary and secondary sources including government documents and personal accounts the book provides a balanced and up to date perspective on the economic imperialism at play The study also connects these historical events to economics political science and sociology to provide a comprehensive analysis Structured to provide a nuanced understanding the book progresses from the rise of the opium trade to the long term impacts on China including economic exploitation and political instability This approach offers a valuable perspective for students scholars and general readers interested in military history and world history particularly those seeking to understand the complex relationship between China and the West

[Creating the Opium War](#) Hao Gao, 2019-12-20 *Creating the Opium War* examines British imperial attitudes towards China during their early encounters from the Macartney embassy to the outbreak of the Opium War a deeply consequential event which arguably reshaped relations between China and the West in the next century It makes the

first attempt to bring together the political history of Sino western relations and the cultural studies of British representations of China as a new way of explaining the origins of the conflict The book focuses on a crucial period 1792 1840 which scholars such as Kitson and Markley have recently compared in importance to that of American and French Revolutions By examining a wealth of primary materials some in more detail than ever before this study reveals how the idea of war against China was created out of changing British perceptions of the country

From Diplomacy to War - British Foreign Policy in China 1793 - 1860 Derya Ünal,2013-04-18 Seminar paper from the year 2013 in the subject World History Modern History grade 6 0 University of Basel course The British Empire language English abstract From the beginning British trade with China was restricted to confinements in Canton as the Qing Emperors saw the foreign intruders as a potential threat and were keen on keeping the foreigners beyond their borders and under tight control This relationship between the two Empires only changed at the beginning of the 19th century when the British decided to renew their trade interests in the Far East The following time was then characterized by an increase of diplomatic efforts between the expansionist British and the reluctant Qing Emperors which was eventually disrupted by war In this paper I want to analyse the development of the British political and economic relations to China during the period of time in 1793 1860 This period was chosen as it marked a turning point in the Anglo Chinese relations causing events that immensely affected the histories of both Empires to come and leading to the rise of one and the downfall of the other The year 1793 witnessed the journey of the Macartney Embassy to the court of the Qing Emperor which was the first renewed attempt to secure trade concessions for the unsatisfied East India Company This first diplomatic act was bound to failure due to the fundamental differences in cultural self conception The subsequent events demonstrate the continuation of failed awareness from two Empires each seeing themselves as the centre of the world In this way the tensions during this time between the powers were also influenced by the change from a cultural to an economic clash exposing the interests of both nations in the conflict The failure of diplomatic measurements is of particular interest in this case as they gave rise to the catastrophic events of the two Opium Wars In order to understand this process I will focus on the employed strategies and policies by the British to reach their goals of opening China to trade Further the aim is to provide an evaluation of both countries motivations during the Opium Wars so as to understand why the British employed different and increasingly pushing tactics or why the Qing Emperors goals were dissimilar to such an extent The year 1860 was chosen as the end of this period as it saw the destruction of the Imperial summer palace by the British as retaliation for their tortured ambassadors and can be seen as a symbol for the disastrous consequences the conflict had on both sides

[The Lion and the Dragon](#) Mark Simner,2019-06-29 During the middle of the 19th Century Britain and China would twice go to war over trade and in particular the trade in opium The Chinese people had progressively

become addicted to the narcotic a habit that British merchants were more than happy to feed from their opium poppy fields in India When the Qing dynasty rulers of China attempted to suppress this trade due to the serious social and economic problems it caused the British Government responded with gunboat diplomacy and conflict soon ensued The first conflict known as the First Anglo Chinese War or Opium War 1839-42 ended in British victory and the Treaty of Nanking However this treaty was heavily biased in favour of the British and it would not be long before there was a renewal of hostilities taking the form of what became known as the Second Anglo Chinese War or Arrow War 1857-60 Again the second conflict would end with an unequal treaty that was heavily biased towards the victor The Lion and the Dragon Britain's Opium Wars with China 1839-1860 examines the causes and ensuing military history of these tragic conflicts as well as their bitter legacies

The Inner Opium War James M. Polachek, 2020-05-11 Why did defeat in the Opium War not lead Ch'ing China to a more realistic appreciation of Western might and Chinese weakness James Polachek's revisionist analysis exposes the behind the scenes political struggles that not only shaped foreign policy decisions in the 1830s and 1840s but have continued to affect the history of Chinese nationalism in modern times Polachek looks closely at the networks of literati and officials self

consciously reminiscent of the late Ming era that sought and gained the ear of the emperor Challenging the conventional view that Lin Tse hsu and his supporters were selfless patriots who acted in China s best interests Polachek agrues that for reasons having more to do with their own domestic political agenda these men advocated a futile policy of militant resistance to the West Linking political intrigue scholarly debates and foreign affairs local notables in Canton and literati lobbyists in Perking this book sets the Opium War for the first times in its inner domestic political context
