Chinese Working Class Lives Getting By In Taiwan:

Chinese Working-Class Lives Hill Gates,2018-03-15 Taiwan s working class has been shaped by Chinese tradition by colonialism and by rapid industrialization This book defines that class explores that history and presents with sensitive honesty the life experiences of some of its women and men Hill Gates first provides a solid and informative introduction to Taiwan s history showing how mainland China Japan the convulsions of twentieth century wars and the East Asian economic expansion interacted in forming Taiwanese urban life She introduces nine individuals from Taiwan s three major ethnic groups to tell the stories of their lives in their own words The narrators include a fortuneteller a woman laborer and a retired air force mechanic A former spirit medium and a janitor are among the others who speak *Chinese Families in the*

Asian-american Education Meyer Weinberg,2012-12-06 Asian American Education Historical Background and Current Realities fills a gap in the study of the social and historical experiences of Asians in U S schools It is the first historical work to provide American readers with information about highly individual ethnic groups rather than viewing distinctly different groups as one vague global entity such as Asians The people who populate each chapter are portrayed as active participants in their history rather than as passive victims of their culture Each of the twelve country specific chapters begins with a description of the kind of education received in the home country including how widely available it was how equal or unequal the society was and what were the circumstances under which the emigration of children from the country occurred The latter part of each of these chapters deals with the education these children have received in the United States Throughout the book instead of dwelling on a relatively narrow range of children who perform spectacularly well the author tries to discover the educational situation typical among average students The order of chapters is roughly chronological in terms of when the first sizable numbers of immigrants came from a specific country *Is Taiwan Chinese?* Melissa J.

Taiwan's Development Cal Clark, 1989-10-06 Known as the Taiwan Miracle the Republic of China on Taiwan R O C has over the past thirty five years experienced one of the world s highest rates of economic growth Arguing that major theoretical frameworks for analyzing international political economy are often too simplistic in that they omit key factors or overly generalize from relationships found only in limited situations Clark uses a detailed case history of the R O C to suggest not only that development and dependency in contemporary society are extremely complex and indeterminate processes but that development in Taiwan deviates significantly from the postulates of the two leading paradigms of international political economy To go even further Clark states that Taiwan s economic growth and transformation resulted from its deviation from the normal dependency syndrome Indeed a development strategy based on economic flexibility and periodic regime change that has made this flexibility possible are hallmarks in Taiwan s success story The United States and other advanced industrial economies whose past successes have created economic and political barriers to future adaptation can be better understood in terms of the characteristics of R O C s development strategy Part I of the three part work focuses on environment first discussing various paradigms and theories about development and then presenting an historical overview of Taiwan The second part investigates Taiwan s international role political development and rapid economic growth The volume closes with a chapter devoted to the implications of the Taiwan experience and political economy paradigms Eight figures and thirty five tables illustrate facets of Taiwan s development including government structure indicators of

agricultural development industrialization educational progress and export performance among others Because of the detailed presentations of political economy theories and their variants especially in relation to economic and political development in Taiwan this volume would be an excellent choice for courses in political economy developing societies Asian politics and international relations theory as well as libraries serving students in these areas The Marriage and Family System in Contemporary Urban China Ming Tsui,1992 *Floating World Lost* E. N. Anderson,2007 Civilized Women Mary H. Moran,1990 *Civilized Women* is concerned with the intersection of cultural constructions of gender and other systems of ranking among the Glebo people of Cape Palmas in southeastern Liberia Like other Liberians the Glebo people make a social distinction between western educated wage earners or civilized people and traditional subsistence agriculturists or natives The civilized native dichotomy splits the Glebo community and Liberian society in general in contrast to other West African nations where ethnicity or regionalism provides important markers of personal identity Through a close analysis of the local history of male labor migration contact with African American settlers and the influence of Protestant Episcopal missionaries Mary H Moran shows how the Glebo have incorporated the civilized native dichotomy into other systems of prestige allocation based on gender and age capturing the poignant nature of civilized and traditional roles for women
