Chiron in Labrys Kathy Jones,2001-02-01 **Esoteric Healing - Part 1** Dr. Douglas M. Baker,2014-04-04 Introduction to Esoteric Healing Part 1 For centuries men have sought healing and obtained it long before our methods of treatment were elaborated The methods used then have remained esoteric or veiled and only the outer shell mainly nonsensical has survived for history to ridicule In centuries to come men will also marvel at how we healed in our own day with so many drugs that were later put on the poison list Now for the first time the field of the esoteric healer is being revealed by scientific devices This field of operation for the esoteric healer is the etheric body the vitalising matrix underlying all tissue described by contemporary yogis who even at this moment are revealing facts about man s nature which are not only able to be demonstrated in the neurophysiologic laboratories of such esteemed medical establishments as the Meninger Foundation at Topeka and the World Health Organisation but facts which don t yet exist in our medical physiology and anatomy textbooks Animals suffer intense stress but do not die from coronaries duodenal ulcers and hypertension because of it Many a man will suffer stress persistently and not die from it Disciples all suffer stress but their disciplines enable them to thrive on such situations Only those who are unable to cope or to receive feedback on their reactions to stress or are unable to stop thinking about their troubles or believe themselves to be continuously subject to them go down The difference between all these is not physical it is supraphysical It lies in those realms whose laws are understood obeyed and used by esoteric healers After twenty five years of patient research in the ways of Orthodox Medicine and its esoteric counterpart I have no reason to change my firm belief that the cause of ninety per cent of all disease lies in the inability of Man to express himself according to the purposes of his own Soul whether he be aware of these purposes or not the inability to express in his way of life Truth Beauty and Goodness which after all is not saying anything new for this was the belief of Socrates and Plato twenty five centuries ago What will eventually be practised as Preventive Medicine is already established in great measure in the daily living of students of esoteric sciences i e care about diet and nutrition breathing exercises relaxation and meditation
