CHOICE THEORY IN THE CLASSROOM

FORMERLY TITLED *CONTROL THEORY IN THE CLASSROOM*

"We are mistaken if we believe that discipline, dropouts and drugs are what is wrong with today's schools. Serious as these are, they are symptoms of a much larger underlying problem, which is that far too many capable students make little or no effort to learn. Choice theory, a new and powerful explanation of how we behave, explains why this problem exists and how, through learning-teams, we can begin to solve it."
