Chokepoints Maritime Economic Concerns In Southeast Asia:

Chokepoints John Halvard Noer, David Gregory, 1996 The sea lanes through the Indonesian archipelago are of strategic importance to all nations This study examines these narrow sea passages or chokepoints in the South China Sea in light of their economic importance to all major nations Portrays in detail the patterns of trade throughout these waterways to show the relative economic dependence of various nations on these maritime routes Assesses the short and long term economic impacts of the assumed closure of each of the critical straits in the area regardless of the reason Charts and maps

Maritime Security of India Dr. Suresh R, 2014-02-01 This book focuses on various aspects of maritime security of India Starting with the changing dimensions of national security it addresses the issues such as non traditional threats to security the threat posed by non state actors the causes of insecurity and also the imperatives of tackling the human security challenges The need for a comprehensive change in India's security policy is well exposed and certain policy prescriptions are also given The oceans are generally meant for better inaction among nations especially in the era of accelerated pace of globalization With regard to the coastal security of India the role of coastal community is significant The needs for inculcating awareness among the coastal community on coastal security matters as well as infrastructure development along the coastal area are also emphasized It is very important to look into the basic problems of coastal people as they face many human security challenges When we look into the coastal security a convergence of the national security concerns and human security concerns is visible The overall development of the coastal area would lead to better human security and better human security would result in enlisting the support of the coastal community to ensure national security programme especially the coastal security In short coastal security is not only about protecting the coastal terrain and territorial waters from direct attacks by the state actors or non state actors but also safeguarding the interests of all stake holders

Maritime Strategies in Asia Jürgen Schwarz, Wilfried A. Herrmann, Hanns-Frank Sella, 2002 The first ever major study on maritime strategies in the Asian region and the technical co operation possibilities with German maritime industries provides an up to date and comprehensive assessment of the maritime strategic concepts and the navy capabilities of the coastal countries of the Asia Pacific region From a European perspective Asia stretching from the Indian Ocean to the Far Eastern regions is of crucial importance for world trade and international stability But global and regional prosperity and stability are closely related to the indispensable precondition of freedom of navigation for commercial shipping and the unrestricted use of sea lanes of communication SLOCs For many years the prime maritime concern was military not economic as the United States and other nations required secure maritime transport through the sea lanes of the Asian regions in times of military tensions and war Now the emphasis has shifted to the economic component but freedom of navigation for commercial shipping will still have to be guaranteed by military or maritime means and depends to a growing part on modern technical equipment What are the major concerns How well are nations in the region and outside it prepared to deal with these

challenges Are their navies equipped to match the new security environment and to defend the national interests What are the possibilities of international co operation An international team of experts deals with these questions in this joint study led by the Asia Strategic Institute Hong Kong and the Institute of International Relations at the German Federal Armed Forces University in Munich *Cooperative Monitoring in the South China Sea* John C. Baker, David G. Wiencek, 2002-03-30

The Spratly Islands have represented a potential political and military flashpoint in the South China Sea for years involving as they do various claims by China the Philippines Vietnam Malaysia and Taiwan This edited volume examines the issues involved in light of confidence building measures that new high resolution satellite imagery can offer to this and other regions Baker Wiencek and their contributors assess the potential role for cooperative monitoring in mitigating the risk of conflict arising from multinational disputes over the Spratly Islands They analyze how this new generation of civilian and commercial observation satellites can be used to reduce the chances of armed conflict breaking out by providing transparency that will detect and identify politically significant activities occurring at disputed islands and reefs among the Spratlys Of particular interest to policy makers scholars and other researchers involved with military issues in Asia and international security concerns *Freedom of Navigation and Globalization* Myron H. Nordquist, John Norton Moore, Robert Beckman, Ronán Long, 2014-10-09

Freedom of Navigation and Globalization offers a timely analysis of current issues in the Law of the Sea in six Parts Part I examines cooperative measures taken within the Southeast Asia region to combat piracy and armed robbery against ships and the historical activities of the Republic of Korea navy in countering piracy Part II focuses on transnational threats including counter proliferation activities freedom of navigation Illegal Unreported and Unregulated IUU fishing and the regulation of private maritime security companies Part III consists of two essays on development in the Arctic Ocean The first updates the activities of the Arctic Council the second looks at cooperative measures taken by China Japan and Korea with respect to science in the Arctic In Part IV the topic of energy security and sealanes is taken up Institutional building within ASEAN is examined for maritime security in Southeast Asia Freedom of navigation is compared with the straight baselines of China in the South China Sea In the next essay cooperative efforts to enhance navigational safety and environmental protection in the Straits of Malacca and Singapore are explored Part V considers balancing marine environmental protection and freedom of navigation The European Union s Marine Strategy Framework Directive is reviewed The dispute settlement regime in UNCLOS and the 2001 International Law Commission Articles on the Responsibility of States for Internationally Wrongful Acts are analyzed for flag State responsibility for pollution violations The current mechanisms in the South China Sea marine environment are also evaluated Part VI discusses marine data collection in the context of its applicability to Part XIII of UNCLOS Attention is given to the various categories and their legal consequences The last paper in the volume outlines global challenges such as global warming rising sea level and changes in the ice over in the Polar Regions *Strategic Forum* , 1994 **Japan's Sea Lane Security** Euan

Graham,2005-11-16 This is the first major English language study to explore the broad and longstanding connections between Japan s national security and the safety of its sea lanes Tracing issues from pre and post 1945 eras the book explores how Japan s concerns with sea lane protection have developed across such diverse fields as military strategy diplomacy trade policy energy security and law enforcement Drawing upon case study material and primary research including interviews with officials and security analysts the book presents a chronological analysis of Japan s sea lane security While Japan s security policies have recently undergone relatively rapid change a historical treatment of sea lane security issues reveals long term continuity in security policymakers perceptions and responses regarding Japan s defence and foreign policy Revealing a neglected but important aspect of Japan s military and economic security the book investigates why officials and analysts continue to portray the defence of Japan s sea lanes as a matter of life and death
