Choosing Happiness Rudrani Devi, 2019-05-18 What if being happy in this reality was just a choice By the evident unrest presented all around us it doesn't appear to be that simple If it were wouldn't we all have chosen it by now In *Choosing Happiness* Rudrani Devi explores the many reasons why we might not choose happiness and offers ten key tools along with many others from the Access Consciousness Movement that helped her navigate choosing a journey to happiness sometimes against all odds She shares how her entire life had been about being positive choosing joy over sadness and being the proverbial half glass full gal although deep down she knew somehow it wasn't authentic happiness Using examples from her own life's journey Devi illustrates how these tools changed her awareness to what else was possible to create the authentic joy she truly desired in her life Although admittedly not always easy at first Devi devises that these tools are so incredibly simple that anyone using them can choose to create their life as the exuberant joyful being they truly be You just have to be willing to choose it Are you willing to be happy Could happiness be yours simply by choosing it According to Devi it can be This book is an invitation to consider all the infinite possibilities available to you in creating the happiness you've always desired The only question remaining now is will you choose it

stranger Happiness is what you make it where you make it Happiness is our best choice "Choose to Be Happy" Robert Knapick,2020-01-21 I wrote this book because I believe I have something to offer persons who are challenged to deal with life s difficulties Stress unhealthy relationships unrealistic expectations negative self esteem and life s pressure of life cause our mind body and soul to to kilter out of balance and then our health suffers Stress is connected to all physical and mental health complications Given my 40 years of working with adults teens and children I have developed programs in schools hospitals and my private practice that have helped individuals develop successful coping skills Happiness is a feeling state that can be obtained if effective strategies are applied To be successful people must consistently work at making needed changes in their lives My education has prepared me to contribute to helping people with replacing the sadness and discontent in their lives with happiness My first master s degree was in behavioral science it was a very conservative methodology and my second master s was in metaphysical science a more liberal approach to mental health My Ph D is in wholistic life coaching that combined the two degrees As I examined each of the techniques and practices used to help turn negativity into happiness I researched and tested the use of all of the different coping skills that had been developed Throughout this book I provide personal experiences and testimonials by individuals who have used these techniques The result of my findings proved to me that people who are dealing with negative thoughts or feelings can make changes that will put a smile on their face and enabled them to enjoy life After counseling over 15 000 suicidal patients I treated in emergency rooms I can say that if a person makes a commitment to refocus or make personal changes in his her life happiness can be achieved they can be happy So its your choice you can be happy or you can be sad For me I Choose to Be Happy **How We Choose to Be Happy** Rick Foster,Greg Hicks,2004-06-01 Now featuring new research and the most current information on the science of happiness this book presents an outline of the nine choices happy people consistently make Also included are tools for self assessment to allow readers to measure happiness and to find out what might be holding them back from having more of it Insightful intimate and inspiring How We Choose to Be Happy lets readers learn by example and take substantial steps toward joining the ranks of the extremely happy **Choosing Happier** Jem Friar,2017-04-14 This book busts the modern happiness myths that assert that we can find lasting happiness through having more money buying more things or being famous successful or powerful Instead it provides science backed actionable effective and simple practices that can make being happier a whole lot easier **Choosing Happiness** Veronica Ray,1991 *Choosing Happiness* *Choosing Happiness Even When Life Is Hard* Frank M.D. Minirth, Frank B.
