

DIFFERENCE BETWEEN Formal, Informal & Non-formal Education

	FORMAL EDUCATION	INFORMAL EDUCATION	NON-FORMAL EDUCATION
CRITERIA			
DEFINITION	Formal education is a methodical and composed training model, organized and controlled by a given arrangement of laws and standards, exhibiting a somewhat inflexible educational programs, content and procedure.	Informal or casual education is different from formal training and especially from non-formal training, despite the fact that in specific cases it is equipped for keeping up a cozy association with both. Informal instruction does not really incorporate destinations and subjects for the most part included by customary educational program.	Non-formal education qualities are discovered when received methodology does not require learner participation, diminishing contacts among instructor and learner and most exercises happen outside the school. Educative procedures blessed with adaptable educational program and strategy, fit for adjusting to the necessities and interests of learners.
INSTANCES	Acquiring proper knowledge from educational institutions like school, college & university.	Students discussion, learning outside the classroom, use of DVD having educational lectures & TV shows.	Non-credit adult educational programs, sports programs planned by community association, online courses.
COURSE CONTENTS	Properly organize information based on facts.	Multidisciplinary field information.	Particular knowledge of specific domain.
TYPE OF ACTIVITY	Formal activities	Routine training Calming activities	Non-formal activities (outside the school, classroom and after getting jobs)
OUTCOME	Positive and projected	Positive or negative and non-projected	Positive and projected
SOURCE OF ACQUIRING KNOWLEDGE	Schools, colleges, universities and other educational institutions.	Internet, Social Media, electronic/print media, group discussion amongst friends/family members.	Outside the educational institution.
WAY OF ACQUIRING KNOWLEDGE	Direct	Individual, implicit	Direct
ADVANTAGES	Organized, structured and systemic learning process end with recognized certificate which leads to access a reasonable job.	Natural learning process as you learn from daily experience, less costly and time proficient, no need to hire experts, learn from social media, electronic & print media, internet and other sources.	Practiced and vocational training. Literacy with skillfulness growth, flexibility in age, curriculum and time, no regular exams.
DISADVANTAGES	Costly and rigid education, long academic session, adoption of bad habits during study hours, unprofessional trainers may cause the wastage of time and money as well.	Unreliable sources of information, no proper time schedule, inappropriate techniques, unpredictable results, absence of confidence and discipline in learner.	Non-regular turnout of learners, no regular exam so no degree/certificate is awarded at the end of a training session which is just undue consumption of precious time.
