Abstract. This study aims to explore the changes in gender roles and power dynamics in modern society, particularly by analyzing the case of the film *The Proposal* to investigate gender inequality in heterosexual relationships. Despite increased focus on gender equality, gender roles remain unevenly distributed in society, especially in the family and workplace. In particular, this study analyzes the transformation of gender roles and power structures in the film, thus exploring the changes in women’s positions and their sociological significance. Through literature review and case studies, it interprets the gender dynamics in the film through sociological theory, and using statistical data to define traditional gender roles. The results show that by reversing traditional gender roles, the film highlights the persistence of gender inequality in modern society and reflects the innovative transformation of power structures. Thus, it may provide new insights into understanding the evolution of gender roles and emphasizes the challenges and opportunities gender equality faces in practice.

Keywords: Gender Role Transformation, Gender Inequality, Power Dynamics, Sociological Perspective, *The Proposal*

1. Introduction

The workplace and family have long been environments where gender roles and power structures are deeply ingrained in society. Despite increased attention to gender equality issues in recent years, existing research indicates that traditional gender roles and unequal power structures still persist in many areas, particularly concerning women’s positions in leadership roles and within the family. Though the existing literature often focuses on various dimensions of gender inequality, there is limited research on the role of popular culture, particularly films, in reflecting the transformation of gender roles and power structures. Thus, the study analyzes the transformation of gender roles and power structures in the 2009 film *The Proposal*, exploring how the film portrays gender inequality in modern society and its sociological significance. In addition, it explores the reversal of gender roles in the film, examining how this shift reflects the evolving power structures between genders in society. It aims to analyze how the film’s portrayal of these transformations mirrors ongoing gender inequality in real life, while investigating the broader sociological implications of these changes. To this end, the study adopts a qualitative research method, analyzing the film’s plot and character relationships, framed within a sociological theory context, and supplemented with statistical data to define traditional gender roles. It may provide new perspectives on understanding contemporary
