Dynamics Of Soviet Defense Policy:

The Dynamics of Soviet Defense Policy Bruce Parrott, 1990-01-01 Tides of Fortune Zack Cooper, 2025-02-25 An ambitious look at how the twentieth century's great powers devised their military strategies and what their implications mean for military competition between the United States and China How will the United States and China evolve militarily in the years ahead Many experts believe the answer to this question is largely unknowable But Zack Cooper argues that the American and Chinese militaries are following a well trodden path For centuries the world's most powerful militaries have adhered to a remarkably consistent pattern of behavior determined largely by their leaders' perceptions of relative power shifts By uncovering these trends this book places the evolving military competition between the United States and China in historical context Drawing on a decade of research and on his experience at the White House and the Pentagon Cooper outlines a novel explanation for how militaries change as they rise and decline *Tides of Fortune* examines the paths of six great powers of the twentieth century tracking how national leaders adjusted their defense objectives strategies and investments in response to perceived shifts in relative power All these militaries followed a common pattern and their experiences shed new light on both China's recent military modernization and America's potential responses *Kennan Institute Publications* Kennan Institute for Advanced Russian Studies, 1995 State Building and Military Power in Russia and the New States of Eurasia Bruce Parrott, 1995 The outgrowth of a conference jointly conducted by the Russian Littoral Project the Department of War Studies at King's College London and the International Institute for Strategic Studies this volume analyzes the interplay between state building and military power in the post-Soviet states Focusing on conventional military forces it explores and clarifies the influences shaping conceptions of national security and military policies in each country These influences include shifting national identities political and economic upheaval and a volatile external environment Paper edition unseen 22 95 Annotation copyright by Book News Inc Portland OR **The Internal Fabric of Western Security** Gregory Flynn, 2025-03-03 Changes in domestic economic and political conditions together with a loss of confidence in the United States leadership produced serious problems within the Atlantic Alliance *The Internal Fabric of Western Security* first published in 1981 examines the effects of domestic change upon perceived security requirements and explores ways to deal with the problems that developed Beginning with an examination of Allied and European relations the book outlines external challenges to security that the Alliance faces in the 1980s and discusses internal problems that affect member nations' ability to deal with them Country studies of the four largest European members of the Alliance systematically examine domestic constraints on security policy and assess probable approaches for the 1980s A more general analysis is offered on how this situation affects the Allies' ability to work together in dealing with their common security problems The need to integrate economic and military requirements is also discussed *Selected Readings and Documents on Postwar American Defense Policy*, 1985 *Nuclear Strategy in a Dynamic World* Donald M. Snow, 1981 Occasional

Paper ,1992 *Hegemonic Rivalry* Richard Ned Lebow,Barry S. Strauss,1991-04-09 *The Cumulative Book Index* ,1991 A world list of books in the English language Soviet Nuclear Strategy from Stalin to Gorbachev Honoré Marc Catudal,1989 **The Gorbachev Bibliography, 1985-1991** Joseph L. Drea,2009 The first comprehensive English language history of the Japanese imperial army based largely on Japanese language sources Traces the origins evolution and impact of the army as an engine of Japan s regional and global ambitions and as a catalyst for the militarization of its homeland Small States of the European Union and Brexit Laura C. Ferreira-Pereira,2024-06-28 This book seeks to offer a better understanding of the strategic responses to Brexit from ten small European Union EU member states Croatia Czech Republic Estonia Finland Ireland Latvia Lithuania Malta Portugal and Slovakia Inspired in an intersection of different streams of research it examines the extent and the ways Brexit has impacted these countries analysing their coping strategies to deal with the challenges raised by such a disruptive development as well as considering the implications of their reactions to Brexit for patterns of national foreign policy Europeanization In so doing this volume enhances the comprehension of smaller EU member states foreign and security policies offering a systematic and comparative analysis of how political and diplomatic elites in ten countries positioned themselves domestically and within the EU vis vis the Brexit process A combination of conceptual insights valuable empirical accounts and updated knowledge on contemporary issues from such interesting set of case studies provides room for debate on the comparability of the way s in which different small countries have approached their Brexit strategies All these aspects are explored with respect to states that have been relatively neglected and underexplored in the small states literature This edited volume will be of great value to upper level students academics and researchers interested in European politics foreign policy and international relations The chapters in this book were originally published as a special issue of *Journal of Contemporary European Studies* *Soviet Diplomacy and Negotiating Behavior* Library of Congress. Congressional Research Service. Senior Specialists Division,1979 **Some Aspects of the Relationship of Dynamic Programming to the Calculus of Variations** Stuart E. Dreyfus,1964 This short paper surveys three aspects of dynamic programming The first part concerns the salient features of the dynamic programming approach to a problem and relates the formalism to more classical techniques The second section discusses one area of current dynamic programming research the mathematical rigorization of the results and the extension of its domain of proven applicability The third part illustrates the geometric and intuitive attributes of the dynamic programming formalism by treating in what is hopefully a straightforward manner a situation that appears classically to be quite complex This brief survey does not emphasize what may well be the most important merit of dynamic programming its easy generalizations to allow the inclusion of the stochastic and adaptive considerations that characterize almost all realistic
