2. Decide what category you think your case belongs in, with the understanding that others may disagree with you about the definition of your category, and/or whether your chosen case matches your category.
3. In the opening of your essay, introduce the case you will examine and pose your definition question. Do not simply summarize here. Instead, introduce the issue and offer context.
4. To support your argument, define the boundaries of your category (criteria) by using a commonly used definition or by developing your own extended definition. Defining your boundaries simply means naming the criteria by which you will
