Early Christian Mission Set:

Early Christian Mission (2 Volume Set) Eckhard J. Schnabel, 2004-11-19 Ground breaking encyclopaedic study of the first century Christian missionary expansion in two volumes In 1902 Adolf von Harnack published his famous work *The Mission and Expansion of Christianity in the First Three Centuries* A century later Eckhard Schnabel has returned to examine the first century of missionary expansion in his *Early Christian Mission* Patient in its sifting of evidence careful in its judgments and far reaching in its scope it is both a ground breaking and encyclopaedic work Here is a vast and detailed panorama of the missionary impulse activity and strategy of the early church How is it that a first generation Jewish messianic movement undertook a mission to the pagan world and rapidly achieved a momentum that would have a lasting and significant impact on world history This momentous question has surprisingly eluded the concentrated focus of historians and New Testament scholars Perhaps it is because the story of early Christian mission encompasses so much of the history of early Christianity And to tell that history is to traverse a broad spectrum of issues in contemporary New Testament studies all of which have been investigated in specialized depth though frequently unconnected to a unified picture On the other hand as Schnabel comments those who have attempted to paint the portrait of early Christian missions have often painted with brush strokes too broad As a result an undifferentiated picture of early Christian mission is widely held In this monumental study Eckhard Schnabel gives us both a unified and detailed picture of the rise and growth of early Christian mission He begins with a search for a missionary impulse in the Old Testament and Second Temple Judaism He then weighs the evidence for a mission of Jesus to Gentiles But the centre of focus is the apostolic missionary activity as it is related in Acts Paul's letters and the rest of the New Testament Here is a study that seeks to describe all the evidence relevant to the missionary strategy and tactics of the early church to explain the theological dimensions of the early Christian mission and to integrate the numerous studies published in the last decades into a synthetic overall picture Schnabel's detailed and immensely informed analysis will reward careful reading and reflection and form a solid basis for a new understanding of the rise of Christianity and the nature of Christian mission both then and now

Early Christian Missions of Ireland, Scotland, and England Elizabeth Rundle Charles, 1893 *Missionary Monks* Edward L. Smither, 2016-12-02 Missionaries go into all the world and make disciples of all nations while monks live cloistered in a monastery and focus their lives on prayer and studying Scripture correct Not exactly When we study the history of Christian mission especially from around 500 to 1500 CE the key missionaries that we constantly encounter are monks In fact if we don't have monks in this period then we have very little in the way of Christian mission Our aim in this book is to examine the phenomenon of missionary monks those who pursued both a monastic and missionary calling We will meet the monks and monastic orders narrate their journeys in mission and evaluate their approaches to and thoughts about mission

An Archaeology of Early Christianity in Vanuatu James L. Flexner, 2016-12-19 Religious change is at its core a material as much as a spiritual process Beliefs related

to intangible spirits ghosts or gods were enacted through material relationships between people places and objects The archaeology of mission sites from Tanna and Erromango islands southern Vanuatu formerly the New Hebrides offer an informative case study for understanding the material dimensions of religious change One of the primary ways that cultural difference was thrown into relief in the Presbyterian New Hebrides missions was in the realm of objects Christian Protestant missionaries believed that religious conversion had to be accompanied by changes in the material conditions of everyday life Results of field archaeology and museum research on Tanna and Erromango southern Vanuatu show that the process of material transformation was not unidirectional Just as Melanesian people changed religious beliefs and integrated some imported objects into everyday life missionaries integrated local elements into their daily lives Attempts to produce civilised Christian natives or to change some elements of native life relating purely to religion but not others resulted instead in a proliferation of hybrid forms This is visible in the continuity of a variety of traditional practices subsumed under the umbrella term kastom through to the present alongside Christianity Melanesians didn't become Christian Christianity became Melanesian The material basis of religious change was integral to this process

Korean Diaspora and Christian Mission S. Hun Kim, Wonsuk Ma, 2011-05-01 As a divine conspiracy for Missio Dei the global phenomenon of people on the move has shown itself to be invaluable In 2004 two significant documents concerning Diaspora were introduced one by the Filipino International Network and the other by the Lausanne Committee for World Evangelization These have created awareness of the importance of people on the move for Christian mission Since then Korean Diaspora has conducted similar research among Korean missions resulting in this book It is unique as the first volume researching Korean missions in Diasporic contexts appraising and evaluating these missions with practical illustrations and drawing on a wide diversity of researchers

History of Christian Missions Charles Henry Robinson, 1915 The Mission of the Church James P. Ware, 2005-11-01 Paul seemingly nowhere in his letters commands his congregations to preach the gospel Therefore many scholars have concluded that Paul's thinking had little or no place for a mission of the church This study undertakes a fresh investigation of the question by devoting close attention to a text hitherto overlooked in discussion of early Christian mission Paul's letter to the Philippians The Jewish context of Paul's thought in Philippians is the key to unlocking his understanding of church and mission in the letter The study accordingly begins in Part One with an investigation of conversion of gentiles in ancient Judaism Part Two drawing upon this Jewish context focuses on close exegesis of Philippians revealing the crucial place of the mission of the church in Paul's thought The questions addressed by this study go to the heart of our understanding of Paul and of mission in earliest Christianity

The Village in Antiquity and the Rise of Early Christianity Alan Cadwallader, James R. Harrison, Angela Standhartinger, L. L. Welborn, 2023-12-28 A complete geographical and thematic overview of the village in antiquity and its role in the rise of Christianity The volume begins with a state of question introduction by Thomas Robinson assessing the interrelation of the village and city with the rise of early Christianity Alan

Cadwallader then articulates a methodology for future New Testament studies on this topic employing a series of case studies to illustrate the methodological issues raised. From there contributors explore three areas of village life in different geographical areas by means of a series of studies written by experts in each discipline. They discuss the ancient near east Egypt and Israel mainland and Isthmian Greece Asia Minor and the Italian Peninsula. This geographic focus sheds light upon the villages associated with the biblical cities Israel Corinth Galatia Ephesus Philippi Thessalonica Rome including potential insights into the rural nature of the churches located there. A final section of thematic studies explores central issues of local village life indigenous and imperial cults funerary culture and agricultural and economic life.
