Early Israelite Wisdom:

Early Israelite Wisdom Stuart Weeks, 1999 That belief has played an important part not only in the interpretation of the texts but in reconstructions of Israelite society and history In this book Dr Weeks challenges this view arguing that it is largely founded on assumptions which are now widely discredited and he sets out to re evaluate the evidence in the light of more recent research

Early Israelite Wisdom Stuart Weeks, 1999 Dr Week s conclusions will have important implications for the future study of this material and for our understanding of ancient Israel s society and history

Wisdom of Solomon 10 Andrew T. Glicksman, 2011-09-29 The Wisdom of Solomon 10 is a unique passage among Jewish sapiential texts since it both presents Lady Wisdom as God s acting agent in early Israelite history and explicitly categorizes key biblical figures as either righteous or unrighteous Structurally Wisdom 10 is a pivotal text that binds the two halves of the book together through its vocabulary and themes Although chapter 10 is such a unique passage that is central to the work no full scale study of this chapter has been attempted Recent scholarship on the Wisdom of Solomon has focused on the identification of genres in the book s subsections and the author s reinterpretation of Scripture Through the use of historical and literary criticism this study especially focuses on the genre and hermeneutical method of Wisdom 10 in comparison to other passages in the book and similar types of literature inside and outside the Bible Chapter One establishes the purpose and methodology of the study Chapter Two sets the literary and historical contexts for the Wisdom of Solomon and Chapters Three to Six analyze the text poetically form critically exegetically and hermeneutically This study concludes that Pseudo Solomon the book s author composed and used Wisdom 10 in order to bind the two halves of the book together Its genre is that of a Beispielerihe or example list and its form is an alternation of positive and negative examples that are linked by the repetition of a keyword The passage also reflects elements of aretalogy synkrisis and midrash Because of the first two of these elements chapter 10 may be seen as supplementing the encomiastic genre in chapters 6 9 Furthermore the aretalogical flavor of the text depicts Lady Wisdom in ways similar to the popular Hellenistic Egyptian goddess Isis in order to show Wisdom s superiority to the pagan deity Lastly chapter 10 exhibits six primary hermeneutical principles used by the author throughout the book albeit with differing degrees of focus Since the Wisdom of Solomon is a late composition this study illuminates one facet of the Jewish Hellenistic reinterpretation of Scripture and will elucidate similar modes of exegesis in the early rabbinical and early Christian eras

Wisdom in Early Confucian and Israelite Traditions Xinzhong Yao, 2006 Wisdom is an integratal part of all philosophical and religious traditions in the world Focusing on the concept of wisdom this book examines the difficulties and problems facing comparative studies of the early Confucian and Israelite traditions by exploring the cosmological and ethical implications of wisdom in the older layers of Christian and Confucian texts Presenting a detailed discussion of how wisdom was understood in philosophical religious and social contexts by the writers of the so called early Confucian and Israelite wisdom texts this book offers an invaluable contribution to our understanding of the significance of

Miller, 2011 This thesis reexamines the theme of human achievement and the need for divine assistance first introduced by J L Crenshaw who argues that early Israelite wisdom thought reflects a belief in human self sufficiency and an overriding emphasis on the justice of God It is not until the later wisdom writings he suggests that the need for divine assistance forces the sages to reconceptualize God as merciful and compassionate The contrast between the concept of God and the corresponding need and expectation of divine assistance by humanity in early

and late Jewish wisdom raises several points of inquiry relevant to the pursuit of prayer in early Israelite wisdom first prayer in the Old Testament presumes certain incontrovertible characteristics about God which appear at odds with the concept of God in early Israelite wisdom and second the concept of God in early Israelite wisdom also raises questions concerning the nature of God's relatedness to creation and to humanity At issue is the sapiential worldview inherent in early Israelite wisdom which directly affects the expectation for prayer Consequently this thesis reevaluates both the nature of God in wisdom and the nature of God's relatedness to creation and to humanity by examining the philosophical and theological presuppositions inherent in the modern concept of wisdom A new trajectory for the concept of wisdom is then proposed and the study concludes with some observations concerning prayer in Israel's early wisdom tradition
