**Mexico's Evolving Democracy** Jorge I. Domínguez, Kenneth F. Greene, Chappell H. Lawson, Alejandro Moreno, 2015-01-05 Democracy worked in Mexico's 2012 elections just not as democrats would have liked In 2012 the Institutional Revolutionary Party PRI which had governed Mexico with an iron grip for 71 years before being ousted in 2000 was surprisingly returned to power In Mexico's Evolving Democracy a team of distinguished political scientists delivers an exceptional analysis of the remarkable 2012 Mexican elections Extending the scholarship that the editors generated in their panel studies of the 2000 and 2006 elections the book assesses all three elections from both traditional and nontraditional vantage points seeking fuller answers to the lingering question of why this maturing democracy returned the party associated with Mexico's old regime to office To evaluate the PRI's rehabilitation and eventual electoral success the authors explore Mexico's electoral institutions parties candidates campaign strategies public opinion surveys and media coverage They also delve into issues of clientelism corruption drugs violence and the rise of new protest movements in the run up to and aftermath of the elections Not only does the book provide rich detail for Latin American electoral and democratization scholars but its coherent narrative will also appeal to those unfamiliar with Mexican politics Parts one and two offer an excellent recap of the state of play in 2012 part three analyzes why Mexicans voted as they did and part four considers the election's implications for Mexico's political system more broadly

*Mexico's Roswell* Noe Torres, Ruben Uriarte, 2008-04 On August 25 1974 along the Rio Grande River near the Texas border town of Presidio a thunderous explosion in the sky shattered the stillness of the warm summer night An unidentified flying disc traveling at 2 000 miles per hour collided with a small airplane heading south from El Paso Texas The flaming wreckage of both aircraft fell to the Mexican desert below igniting a desperate race by two governments to recover technology from beyond the stars This book was the basis for an episode of the History Channel's UFO Hunters television series

REVIEWS Amazing This story is wilder than the U S Roswell This book is an amazing piece of work George Noory Coast to Coast AM A very nice and thorough job Jim Marrs Bestselling Author Noe and Ruben are to be commended Stanton T Friedman UFO Researcher

**The Health of Aging Hispanics** Jacqueline L. Angel,Keith E. Whitfield,2007-08-06 The emergence of the Hispanic population in the United States and the increasing profile of Latin America on the North and South American continents have raised the profile of Latino issues in the American consciousness Much of this attention however has revolved around trends in culture art food and music or pathological concerns about poverty crime drugs and immigration At best the scholarly and policy assessments of the implications of the impact of Latinos in the United States revolve around Mexican Americans Puerto Ricans and Central Americans as well as the children of an older Cuban population and their struggles to achieve a measure of education healthcare employment and civil rights What have not been adequately addressed are the demographic trends affecting Latinos in the United States Mexico and Latin America particularly the aging of the Hispanic population and its resultant health and long term care needs That Latinos are living longer and shifting from a youthful population to an increasingly older cohort is little known except among the small cadre of Hispanic gerontologists Ironically this invisibility of aging Hispanics is juxtaposed to the almost picked response of the U S media and public toward the aging of the general U S population and the social and political controversies over Social Security Medicare and health care costs The policy debates of an aging U S population as a

whole arise from substantial research and policy analysis a level of attention not seen with regard to the aging of the Hispanic population
