*Choreia* William Mullen,1982-01-01      **The Dance of the Muses** A. P. David,2006-09-28 Publisher description

**Attractive Performances** Frits Naerebout,2023-07-17 This book is not another history of the dance in ancient Greece but wants to lay the groundwork on which such a history should properly be build The three preliminary studies offered here are first an extensive historiography of the subject which seeks to illuminate where we stand at present in reference to the large amount of work done on ancient Greek dance for the past 500 years Secondly an exercise in source criticism embracing both texts and imagery in order to establish the limits to which we can push any investigation and thirdly an attempt at model building to provide an explicit theoretical framework for future research This is the first time that some of the approaches of the new dance scholarship which has arisen during the past few decades have been systematically applied to the dancing of the ancient world

*Tragedy in Athens* David Wiles,1999-08-19 This book examines the performance of Greek tragedy in the classical Athenian theatre David Wiles explores the performance of tragedy as a spatial practice specific to Athenian culture at once religious and political After reviewing controversies and archaeological data regarding the fifth century performance space Wiles turns to the chorus and shows how dance mapped out the space for the purposes of any given play The book shows how performance as a whole was organised and through informative diagrams and accessible analyses Wiles brings the theatre of Greek tragedy to life

*A Heavenly Chorus* Justin Jeffcoat Schedtler,2014-10-30 The claim that Revelation s hymns function as did Classical tragic choral lyrics insofar as they comment upon or interpret the surrounding narrative has become axiomatic in studies of Revelation Justin Jeffcoat Schedtler marks an advance in this line

of inquiry by offering an exegetical analysis of Revelation's hymns alongside a presentation of the forms and functions of ancient tragic choruses and choral lyrics Evaluating the hymns in light of the varieties and complexities of ancient tragic choruses he demonstrate that they are not best evaluated in terms of choral lyrics generally but in terms of dramatic hymns in particular insofar as they constitute mythological theological reflections on the surrounding narrative and function to situate the surrounding dramatic activity in a particular mythological theological contexts *Dark Writing* Paul Carter,2008-10-31 We do not see empty figures and outlines we do not move in straight lines Everywhere we are surrounded by dapple the geometry of our embodied lives is curviform meandering bi pedal Our personal worlds are timed interpositional and contingent But nowhere in the language of cartography and design do these ordinary experiences appear This *Dark Writing* argues is a serious omission because they are designs on the world architects and colonizers use their lines to construct the places where we will live But the rectilinear streets squares and public spaces produced in this way leave out people and the entire environmental history of their coming together How this book asks can we explain the omission of bodies from maps and plans And how can we redraw the lines maps and plans use so that the qualitative world of shadows footprints comings and goings and occasions all essential qualities of places that incubate sociality can be registered In short *Dark Writing* asks why we represent the world as static when our experience of it is mobile It traces this bias in Enlightenment cartography in inductive logic and in contemporary place design This is the negative critique Its positive argument is that when we look closely at these designs on the world we find traces of a repressed movement form Even the ideal lines of geometrical figures turn out to contain traces of earlier passages and there are many forms of graphic design that do engage with the dark environment that surrounds the light of reason How can this dark writing so important to reconfiguring our world as a place of meeting of co existence and sustaining diversity be represented And how therefore can our representations of the world embody more sensuously the mobile histories that have produced it *Dark Writing* answers these questions using case studies the exemplary case of the beginnings of the now world famous Papunya Tula Painting Movement Central Australia and three high profile public place making initiatives in which the author was involved as artist and thinker These case studies are nested inside historical chapters and philosophical discussions of the line and linear thinking that make *Dark Writing* both a highly personal book and a narrative with wide general appeal *Dying Acts* Fiona Macintosh,1994 *Style and Rhetoric in Pindar's Odes* William H. Race,1990 **Lustrum** Hans Joachim Mette,Andreas Thierfelder,1990 **Dance Research Journal** ,1996 *Bacchylides* David Fearn,2007-07-12 An original and wide ranging study of the Greek lyric poet Bacchylides exploring his engagement with poetic tradition and evaluating the complex relationship of the poetry to its multiple contexts of performance **The Classical Greeks** Michael Grant,1989 A history of Greek civilization from the 5th century B C to 336 B C Focuses on 37 great men of the age **The Thinker as Artist** George Anastaplo,1997 These imaginative yet disciplined discussions of important texts of ancient Greek thought and of

Raphael's The School of Athens should appeal to both the specialist and the general reader Sons of the Gods, Children of Earth Peter Wires Rose, 1992 In this ambitious and venturesome book Peter W Rose applies the insights of Marxist theory to a number of central Greek literary and philosophical texts He explores major points in the trajectory from Homer to Plato where the ideology of inherited excellence beliefs about descent from gods or heroes is elaborated and challenged Rose offers subtle and penetrating new readings of Homer's Iliad and Odyssey Pindar's Tenth Pythian Ode Aeschylus's Oresteia Sophokles Philoktetes and Plato's Republic Rose rejects the view of art as a mere reflection of social and political reality a view that is characteristic not only of most Marxist but of most historically oriented treatments of classical literature He applies instead a Marxian hermeneutic derived from the work of the Frankfurt School and Fredric Jameson His readings focus on illuminating a politics of form within the text while responding to historically specific social political and economic realities Each work he asserts both reflects contemporary conflicts over wealth power and gender roles and constitutes an attempt to transcend the status quo by projecting an ideal community Following Marx Rose maintains that critical engagement with the limitations of the utopian dreams of the past is the only means to the realization of freedom in the present Classicists and their students literary theorists philosophers comparatists and Marxist critics will find Sons of the Gods Children of Earth challenging reading Attitudes & Arabesques, 1992-06 **Pindar's Homer** Gregory Nagy, 1990 Nagy challenges the widely held view that the development of lyric poetry in Greece represents the rise of individual innovation over collective tradition Arguing that Greek lyric represents a tradition in its own right Nagy shows how the form of Greek epic is in fact a differentiation of forms found in Greek lyric Throughout he progressively broadens the definition of lyric to the point where it becomes the basis for defining epic rather than the other way around *Pindar's Feasts, Or, The Music of Power* Thomas Cole, 1992 *A Bibliography on the Relations of Literature and the Other Arts*, 1983 **Archaic Greek Poetry** Barbara Hughes Fowler, 1992 With this anthology Barbara Hughes Fowler presents the most comprehensive selection of Greek poetry of the seventh and sixth centuries B C ever published in English Fowler's brilliant translations provide access to six Homeric Hymns eight selections from Bakchylides twelve odes of Pindar selections from the iambicists and elegists virtually all of Archilochos and of the surviving lyricists including Sappho and a number of anonymous poems about work play and politics Archaic poets delighted in all that was radiant and delicate and their poems should be read for their narrative charm celebration of nature and playful sensuality There are tantalizing fragments of fables here as well as poems of friendship and warfare love and colonization Along with her notes and bibliography Fowler has provided a biographical list of poets and a glossary of proper names In addition to its breadth Archaic Greek Poetry stands alone as the only volume of its kind translated by a contemporary published poet Perhaps the most elegant translator of ancient Greek poetry into modern English Barbara Hughes Fowler offers translations true to the original Greek while providing modern readers with superb examples of the beauty of lyric poetry Students and scholars of classical and comparative literature
