## **Christ And The Cosmos:**

Christ and the Cosmos Keith Ward,2015-08-06 Keith Ward clarifies the Trinitarian doctrine in light of contemporary scientific thought offering a coherent wholly monotheistic interpretation of God Jesus and the Cosmos Denis Edwards,2004-07-22 At the end of the twentieth century we began to understand that the earth is vulnerable that it is like a tiny garden in space under threat on all sides Jesus and the Cosmos is an attempt to think theologically about the ecological crisis we face in the light of the great Christian tradition Our theological tradition has been shaped within the worldview of a static universe By contrast we are told today that the universe began with a cosmic explosion called the Big Bang that we live in an expanding universe with galaxies rushing away from us at an enormous rate that we human beings are part of an evolutionary movement on the earth and that we are intimately linked with the health of delicately balanced life systems on our planet Not only has modern science given this age a new cosmology but contemporary historical studies have provided us with a new approach to the historical Jesus Critical biblical study has allowed us to know far more about the Jesus who brought joy and liberation into people s lives In Jesus and the Cosmos Denis Edwards tells the story of the cosmos the story of Jesus of Nazareth and shows their connections Ultimately he will assert Jesus of Nazareth risen from the dead IS the dynamic power at the heart of the cosmic process Apocalyptic Good News R. Dean Drayton,2019-07-12 Remarkable studies in the New Testament have recovered the fact that the gospel the good news of Jesus Christ was apocalyptic good news God s redemptive action within history Today for more and more people the sheer scope of an evolutionary universe renders life on Earth as utterly insignificant religion as nothing more than superstition And now in the Anthropocene we on the pale blue dot live in an apocalyptic age in which cataclysmic issue after cataclysmic issue threaten the future of the planet The faith of the early church was in an apocalyptic cosmic Christ unleashing within history God s good news of a new creation Set within the world as we now know it this gives meaning to the cosmos and life wherever it is found around any star Screened from view for over a millennium during mission to non apocalyptic cultures now is the time for a new paradigm for church the apocalyptic church for an apocalyptic age to replace the denominational church What a difference this makes to faith worship and the role of the church in an apocalyptic future **Christ and the Cosmos** E. H. Andrews,1986 The evolutionary scenario for the origin of life is almost universally accepted and taught Yet against this stands the Christian contention for a biblical view of origins In this Professor Andrews last work he moves on from the basic evolution creation debate to examine our whole concept of the creationist position Can creationism be proved by scientific evidence Indeed how much weight should we give to scientific findings in relation to biblical teaching Professor Andrews contends that if our concept of the cosmos is to be a true one then the Christ of the Bible must be at the centre of our thinking Nay theory of origins whether scientific creationism or evolution that fails at this point is equally false Only in Christ the Creator and Sustainer of the universe can Christian faith find its ultimate and glorious fulfilment *The New Testament and the Future of the Cosmos*

Ryan P. Juza, 2020-11-05 *The New Testament and the Future of the Cosmos* is an exploration into the cosmic eschatology of the New Testament. It invites the reader to grapple with two interrelated questions along with the author: 1. What did the writers of the New Testament teach about the fate of the cosmos? and 2. Can we synthesize their teachings into a coherent New Testament theology? By offering a close reading of key texts that inform the topic, most notably Matt 24:29-31, Mark 13:24-27, Luke 21:25-28, Rom 8:19-22, Heb 12:25-29, 2 Pet 3:4-13, and Rev 21:1-5, it is argued that one can, with certain qualifications, ascertain a clear and coherent New Testament message pertaining to the future of the cosmos. Along the way, new exegetical ground is broken in several passages by identifying a previously unnoticed theme that runs throughout the New Testament concerning the future of the cosmos: God's judgment of the heavenly powers of evil as a key component to the cosmic transition. At present, these hostile powers hold the cosmos captive to death, but on the Day of the Lord, they will be overthrown, setting the stage for a materially transformed world to emerge from the hand of God.

**Christ and the Cosmos** Gordon Strachan, 1985 *Cosmos and Revelation* Peter R. Stork, 2021-09-30 Science and technology have profoundly altered the cosmic and societal perceptions of the world. Regrettably, the Christian imagination has not kept pace. Most believers still adhere to pre-scientific views. *Cosmos and Revelation* urges the Christian community to reimagine God's creation by engaging the data of science. For if God has indeed brought forth an intelligible world for us to explore through scientific research, those who profess this faith ought to, as a minimum, allow scientific findings to expand their theological horizon. Drawing on his scientific qualification and academic background in theology, Peter R. Stork opens several windows on God's creation, from galactic star nurseries to the wonderland of living cells. After rereading Genesis 1 and 2, the author interlaces examples and reflections to present a coherent yet provocative sketch of the new landscape that spreads out before us, leaving it to his readers to intuit for themselves the immensities Christians are challenged to embrace in the age of science.

*Christ and the Cosmos* Jean-François Bonnefoy, 1965 [Circles and the Cross](#) Loren Wilkinson, 2023-08-21 *Circles and the Cross* is an invitation to explore two mysteries. One is the miracle of the cosmos: why is there something and not nothing? The other is the miracle of consciousness: why should this collection of stardust be an "I" and not just an "it"? Our basic response to those mysteries is wonder, and from wonder, we have grown the three great trees of human culture: religion, art, and science. This exploration is undertaken in the light of a third mystery: the cross of Christ is the clearest picture we have of the triune Creator of both cosmos and consciousness. That self-emptying of the Creator out of love for the creation helps us understand the pleasures, paradoxes, and pains of science; it helps us understand how evolution can be another name for creation; it casts light on the Enlightenment and Romanticism. In particular, it illuminates the environmental movement, an ethic in search of a religion. Loren Wilkinson, drawing on fifty years of teaching and writing about our relationship to creation, invites you to join this journey into understanding how the cross of Christ sheds light on the mysteries that surround us and gives us hope in a difficult age.

Van Pelt,2018 **The Christ of the Holy Grail** James Leith Macbeth Bain,1909 **Creation and Cosmos - The Literal Values of Genesis** Garrison Clifford Gibson,2012-11-27 There are many questions that intelligent people have about the Bible science and evolution theory Finding intelligent answers is difficult The problem is that specialization is required in the sciences in philosophy and theology so people tend to pick one and disregard the others There aren t so many people that consider all three fields with much depth of understanding I made a try at that and wrote a book that is free to download It is not only difficult to understand all three fields it is difficult to select what should be written about and difficult to write well I didn t by any means cover everything there is lots to cover **The Evangelical Universalist** Gregory MacDonald,Robin A. Parry,2012-05-11 Can an orthodox Christian committed to the historic faith of the church and the authority of the Bible be a universalist Is it possible to believe that salvation is found only by grace through faith in Christ and yet to maintain that in the end all people will be saved Can one believe passionately in mission if one does not think that anyone will be lost forever Could universalism be consistent with the teachings of the Bible Gregory MacDonald argues that the answer is yes to all of these questions Weaving together philosophical theological and biblical considerations MacDonald seeks to show that being a
