achieve acceptance from mainstream cultural institutions it is rarely collected and seldom included in the study of art history or other academic disciplines In MediaArtHistories leading scholars seek to change this They take a wider view of media art placing it against the backdrop of art history Their essays demonstrate that today s media art cannot be understood by technological details alone it cannot be understood without its history and it must be understood in proximity to other disciplines film cultural and media studies computer science philosophy and sciences dealing with images Contributors trace the evolution of digital art from thirteenth century Islamic mechanical devices and eighteenth century phantasmagoria magic lanterns and other multimedia illusions to Marcel Duchamp s inventions and 1960s kinetic and op art They reexamine and redefine key media art theory terms machine media exhibition and consider the blurred dividing lines between art products and consumer products and between art images and science images Finally MediaArtHistories offers an approach for an interdisciplinary expanded image science which needs the trained eye of art history Contributors Rudlof Arnheim Andreas Broeckmann Ron Burnett Edmond Couchot Sean Cubitt Dieter Daniels Felice Frankel Oliver Grau Erkki Huhtamo Douglas Kahn Ryszard W Kluszczynski Machiko Kusahara Timothy Lenoir Lev Manovich W J T Mitchell Gunalan Nadarajan Christiane Paul Louise Poissant Edward A Shanken Barbara Maria Stafford and Peter Weibel
