Ea Judas Judge

Elisha COLES (Lexicographer.)

Ea Judas Judge:

Perspectives on New Testament Textual Criticism, Volume 2 Eldon Jay Epp, 2020-11-30 Eldon Jay Epp's second volume of collected essays consists of articles previously published during 2006-2017. All treat aspects of the New Testament textual criticism but focus on historical and methodological issues relevant to constructing the earliest attainable text of New Testament writings. More specific emphasis falls upon the nature of textual transmission and the text critical process and heavily on the criteria employed in establishing that earliest available text. Moreover, textual grouping is examined at length and prominent is the current approach to textual variants not approved for the constructed text for they have stories to tell regarding theological, ethical, and real life issues as the early Christian churches sought to work out their own status, practices, and destiny.

New Testament Manuscripts Thomas J. Kraus, Tobias Nicklas, 2006-05-01 *New Testament Manuscripts: Their Texts and Their World* comprises twelve essays dealing with manuscripts of the New Testament and what we can learn from them today. Starting from different angles, the contributors, distinguished scholars of international reputation, focus on the fascinating and thrilling stories manuscripts tell for instance about the times they were produced in or the people who handled them. The multitude of manuscripts used for establishing the critical text of the New Testament is often only perceived as abbreviations in form of single letters or numerals and today's biblical scholars may hardly ever take notice of the specific features of an original manuscript above all those not mentioned in a critical edition. Therefore, three sets of contributions deal with the conditions under which manuscripts from the early days of Christianity were produced and transmitted, specific individual manuscripts, and then special features observed in and with the help of various manuscripts. In a final essay, the usual method of how to organize and categorize New Testament manuscripts is challenged and an alternative method proposed. The essays are linked with each other so that readers may get a feeling of how astounding an occupation with the original manuscripts of the New Testament and the days of the early Christians can be.

The Century Dictionary and Cyclopaedia: Dictionary William Dwight Whitney, Benjamin Eli Smith, 1899 *Reverse Acronyms, Initialisms, & Abbreviations Dictionary*, 2009 [Science Fiction and Fantasy Literature, 1975-1991](#) R. Reginald, Mary Wickizer Burgess, Daryl Furumi Mallett, 1992 Science fiction constitutes one of the largest and most widely read genres in literature and this reference provides bibliographical data on some 20,000 science fiction, fantasy, and horror fiction books as well as nonfiction monographs about the literature. A companion to Reginald's *Science Fiction and Fantasy Literature 1700-1974* (Gale, 1979), the present volume is alphabetically arranged by approximately 10,000 author names. The entry for each individual work includes title, publisher, date, and place published, number of pages, hardbound or paperback format, and type of book (novel, anthology, etc.). Where appropriate, entries also provide translation notes, series information, pseudonyms, and remarks on special features such as celebrity introductions. Includes indexes of titles, series, awards, and doubles for locating volumes containing two novels. Annotation copyright by Book News Inc., Portland, OR. **Reverse**
