

A man and a woman are posed on a rooftop at night, with a city skyline in the background. The man is wearing a dark suit, white shirt, and dark tie. The woman is wearing a dark blue dress. Ea Stranger Beside Me:

The Ripper Inside Us Rebecca Frost,2024-04-04 The story of Jack the Ripper has had continual interest since he stalked the streets of Whitechapel during the Autumn of Terror in 1888 During this time the murders of the Canonical Five made headlines all over the world while in the modern day the Ripper story continues to permeate all forms of media on the page screen in podcasts and in fiction We continue to search for something we will likely never and perhaps do not even wish to discover Jack s true name This book looks at the lasting intrigue of Jack the Ripper and how his story and the stories of the Canonical Five victims are brought back to life through modern lenses As psychological approaches and scientific techniques advance the Ripper s narrative evolves opening a more diverse means of storytelling and storytellers How these storytellers attempt to construct a full tale around the facts including the burning questions of motive and identity says more about us than the Ripper

SERIAL KILLERS William M. Harmening,2014-09-01 Whether it be Jack the Ripper in nineteenth century England or Ted Bundy in 1970s America the public has always been fascinated by the criminal offender type known as the serial killer Professionals continue to speculate and develop new theories about their identity decades after their crimes ended But what is it that causes such evilness in individuals that causes them to take an innocent life not once but multiples times and for no apparent reason beyond their own perverse psychological gratification This fascinating book explores this question by looking at the psychosocial determinants of criminal behavior including serial murder The role of such internal processes as attachment moral development and identity formation in the development of a person s predisposition to various forms of deviance including physical and sexual aggression is reviewed This information is then applied to actual serial killers including David Berkowitz The Son of Sam Charles Manson Eric Rudolph God s Crusader Ted Bundy The Face of Evil Edmund Kemper The Co ed Killer and the Zodiac Killer in an effort to construct a psychosocial profile of each and to attempt to pinpoint the various developmental factors that contributed to their eventual criminality Finally early intervention strategies are explored that can potentially redirect a child s developmental trajectory away from crime and deviance and toward a more adaptive and socially acceptable behavioral repertoire This book will be an insightful resource to all law enforcement professionals policymakers police academics psychologists psychiatrists and many others in the helping professions as well

Human Paleopsychology K. Bailey,2013-08-21 First Published in 1986 In this book the author seeks to demonstrate his believe that any credible view must grapple not only with human distinctiveness e g learning capacity language rationality and culture but the dark sides of senseless violence and social disorder as well Any such grappling with the dark side must necessarily confront our animal natures as well as our distinctly human natures

Malignant Narcissism Cary Stacy Smith,Li-Ching Hung,2021-03-01 In this book a psychologist and a professor detail the history psychology and effects of this little studied condition that has altered individuals and societies worldwide arguing that the disorder deserves its own classification Psychoanalyst Erich Fromm in 1964 developed the term malignant narcissism

believing it to be the worst form of psychopathology a disorder that essentially epitomized evil Malignant narcissism however has never been identified as a clinical condition in the Diagnostic and Statistical Manual of Mental Disorders instead it is seen as a conglomeration of several other disorders Yet researchers since Fromm have described malignant narcissists as unique in their callous nature and proclivity to extreme violence with a component of sadism bringing them pleasure when inflicting pain The largest concern about malignant narcissists is that some have the ability and wherewithal to rise to great positions of power and influence and to affect large numbers of people Authors Smith and Hung explain the differences between malignant narcissists everyday narcissists and psychopaths illustrating these conditions with vignettes of historic public figures and people in popular culture among others Star Power Aaron Barlow,2014-08-11 Stars do have real power but not all of them wield it wisely This work explores how a variety of celebrities developed their brands and how celebrity can become a jumping off point to entirely unrelated activities Over the past century a new breed of entertainer has arisen one where the old division between on camera talent and the suits behind the scenes has largely eroded From Mabel Normand and Charlie Chaplin to Lady Gaga and Quentin Tarantino entertainers have attempted to cross specialties and platforms to new arenas from politics to philanthropy and more An ideal resource for general readers as well as students of American popular culture and media at the undergraduate through scholar level Star Power The Impact of Branded Celebrity details the new ways entertainers are working in expanded environments to broaden their brands while also providing the history behind this recent trend The two volume set comprises four main sections one that provides historical background a second on entertainers moving beyond stardom a third focused on commerce and education and a final section on cultural missions The work documents how earlier entertainers set the stage for today s stars by exploiting their celebrity to take greater artistic control of their projects and provides articles that depict each artist from a number of perspectives Readers will understand what motivates the most important contemporary entertainers working today and better grasp the business of entertainment as a whole how Hollywood works and who is really in control Descant ,1988 Antiquarian Bookman ,1966 *Time* Briton Hadden, Henry R. presents the current law enforcement responses to serial murder and discusses the problem of linkage blindness the inability of police to share information on unsolved murders Finally this study looks to the future of serial murder research and investigation Each chapter is followed by a valuable reference section and the work concludes with a selected bibliography on serial murder
