Kafka's Novels Patrick Bridgwater, 2021-11-22 Kafka s three novels to be understood as an ever more intricate portrayal of the inner life of one central character Henry James s centre of consciousness each reflecting the problems of their self critical creator are tantamount to dreams The hieroglyphic pictorial language in which they are written is the symbolic language in which dreams and thoughts on the edge of sleep are visualized Not for nothing did Kafka define his writing as a matter of fantasizing with whole orchestras of free associations Written in a deliberately enhanced hypnagogic state these novels embody the alternative logic of dreams with the emphasis on chains of association and verbal bridges between words and word complexes The product of many years preoccupation with its subject Patrick Bridgwater s new book is an original chapter by chapter study of three extraordinarily detailed novels of each of which it offers a radically new reading that makes more and different sense than any previous reading In Barthes terms these fascinating novels are unreadable but the present book shows that properly read they are entirely if ambiguously readable Rooted in Kafka s use of language it consistently explores in detail i the linguistic implications of the dreamlike nature of his work ii the metaphors he takes literally and iii the ambiguities of so many of the words he chooses to use In doing so it takes account not only of the secondary meanings of German words and the sometimes dated metaphors of which Kafka taking them literally spins his text but also where

relevant of Czech and Italian etymology Split for ease of reference into chapters corresponding to the chapters of the novels in the new Originalfassung the book is aimed at all readers of Kafka with a knowledge of German for the author shows that Kafka's texts can be understood only in the language in which they were written because Kafka's meaning is often hidden beneath the surface of the text conveyed via secondary meanings that are specific to German any translation is necessarily an Oberflächenbersetzung Finding Meaning in Dreams G. William Domhoff, 2013-06-29 Distinguished psychologist G. William Domhoff brings together for the first time all the necessary tools needed to perform quantitative studies of dream content using the rigorous system developed by Calvin S. Hall and Robert van de Castle The book contains a comprehensive review of the literature detailed coding rules normative findings and statistical tables **The Absurd in Literature** Neil Cornwell, 2006-10-31 This is the first book to offer a comprehensive survey of the phenomenon of the absurd in a full literary context that is to say primarily in fiction as well as in theatre **Kafka's Italian Progeny** Saskia Elizabeth Ziolkowski, 2020-01-06 This book explores Kafka's sometimes surprising connections with key Italian writers from Italo Calvino to Elena Ferrante who shaped Italy's modern literary landscape *The 20th Century Go-N* Frank N. Magill, 2014-03-05 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in-depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography *Kafka's 'Landarzt' Collection* Gregory B. Triffitt, 1985 Deriving from one of the most turbulent yet fruitful periods in Kafka's career some of the 14 Landarzt pieces have attracted hundreds of commentators But very few scholars have concerned themselves with the work as a totality and none of them has adequately accounted for the quite specific ordering of the pieces although Kafka himself set considerable store by the matter Through a detailed examination of previous Kafka research and a thorough analysis of the collection as a subtly structured unity this study attempts to make good the omissions of earlier interpreters **Franz Kafka's The Castle** Harold Bloom, 1988 Approaches to Personal Identity in Kafka's Short Fiction Leena Eilittä, 1999 Eilittä Oxford U is not in fact concerned with revealing characters in German writer Kafka's 1883-1924 fiction as allusions to the three famous figures Rather she explores how Freudian psychoanalysis critical discussion surrounding social Darwinism and Kierkegaard's existentialism influenced his treatment of personal identity Distributed in the US by ISBS Annotation copyrighted by Book News Inc Portland OR Earth and Sky, History and Philosophy Galen A. Johnson, 1989 This book is a philosophical inquiry into historical meaning and narrative understanding Interpreting selected writings of Husserl and Merleau-Ponty and stories of Kafka Rilke Sartre and Camus the author defends the narrative coherence of life and the irreducibility of narrative understanding and truth The

island imagery uncovered in these authors provides the parameters for a contemporary philosophy of history properly mingling earth and sky as natality and mortality remembering and forgetting wandering and homecoming waking and dreaming wealth and poverty Johnson has pushed the life world theme of Husserl's phenomenology out toward the wild flowering world where it seems to have been headed

Kafka's Doubles Kurt J. Fickert, 1979 The basic conflict in Franz Kafka's life and work involved his two selves Dichter and bureaucrat Kafka's Doubles explores the result of this dichotomy the doubling which is a prominent literary feature of the Kafka canon There are two kinds of doubles in Kafka autoscopic pairs that is twins occur in *The Trial* in Blumfeld and *The Castle* Despite their prominently physical similarity they have traits which distinguish one from the other in this way they represent the divided self More frequently found are dissociative doubles separate and physically distinct characters who represent two aspects of one self In this study the device of doubling its literary forebears and its psychological nuances are considered with a view to clarifying some of the obscurity in Kafka's work without attacking its ambiguity

Dreams in the Psychology of Religion James Gollnick, 1987 This work studies the relationship between the religious and psychological interpretations of dreams
