Bertolt Brechts Dreigroschenbuch Bertolt Brecht, 1973 **The Hero in Selected Works of Bertolt Brecht** William Ashley Stoppel, 1959 **Politics and Beauty in America** Timothy J. Lukes, 2016-06-28 This book holds classical liberalism responsible for an American concept of beauty that centers upon women wilderness and machines For each of the three beauty components a cultural entrepreneur supremely sensitive to liberalism s survival agenda is introduced P T Barnum s exhibition of Jenny Lind is a masterful combination of female elegance and female potency in the subsistence realm John Muir s Yosemite Valley is surely exquisite but only after a rigorous liberal education prepares for its experience And Harley Earl s 1955 Chevrolet Bel Air is a dreamy expressionist sculpture but with a practical 265 cubic inch V 8 underneath Not that American beauty has been uniformly pragmatic The 1950s are reconsidered for having temporarily facilitated a relaxation of the liberal survival priorities and the creations of painter Jackson Pollock and jazz virtuoso Ornette Coleman are evaluated for their resistance to the pressures of pragmatism The author concludes with a provocative speculation regarding a future liberal habitat where Emerson s admonition to attach stars to wagons is rescinded

Twenty Years on Renate Rechten, Dennis Tate, 2011 Twenty years on from the dramatic events that led to the opening of the Berlin Wall and the collapse of the GDR the subjective dimension of German unification is still far from complete The nature of the East German state remains a matter of cultural as well as political debate This volume of new research focuses on competing memories of the GDR and the ways they have evolved in the mass media literature and film since 1989 90 Taking as its point of departure the impact of iconic visual images of the fall of the Wall on our understanding of the historical GDR the volume first considers the decade of cultural conflict that followed unification and then the emergence of a more complex and diverse textual memory of the GDR since the Berlin Republic was established in 1999 It highlights competing generational perspectives on the GDR era and the unexpected afterlife of the GDR in recent publications The volume as a whole shows the vitality of eastern German culture two decades after the demise of the GDR and the centrality of these memory debates to the success of Germany s unification process
