**LISS 2012** Zhenji Zhang, Runtong Zhang, Juliang Zhang, 2013-03-19 Information and communication technology has helped to provide a more effective network infrastructure and development platform for logistics and service operations. In order to meet the needs of consumers and particularly to promote low carbon development processes, new types of services will also emerge. LISS 2012 is a prime international forum for both researchers and industry practitioners to exchange the latest fundamental advances in the state of the art and practice of logistics informatics, service operations, and service science. Experts and researchers from related fields will discuss current issues and future development opportunities, discuss and analyze developing trends, and exchange the latest research and academic thought. The theme of the conference is Logistics and Service Science based on the Internet of Things.
