[The Drug Wars in America, 1940-1973](#) Kathleen J. Frydl, 2013-04-22 *The Drug Wars in America 1940 1973* argues that the US government has clung to its militant drug war despite its obvious failures because effective control of illicit traffic and consumption were never the critical factors motivating its adoption in the first place Instead Kathleen J Frydl shows that the shift from regulating illicit drugs through taxes and tariffs to criminalizing the drug trade developed from and was marked by other dilemmas of governance in an age of vastly expanding state power Most believe the drug war was inaugurated by President Richard Nixon's declaration of a war on drugs in 1971 but in fact his announcement heralded changes that had taken place in the two decades prior Frydl examines this critical interval of time between regulation and prohibition demonstrating that the war on drugs advanced certain state agendas such as policing inner cities or exercising power abroad

**Drug War Politics** Eva Bertram, Morris Blachman, Kenneth Sharpe, Peter Andreas, 1996-07-15 Why have our drug wars failed and how might we turn things around Ask the authors of this hardhitting expos of U S efforts to fight drug trafficking and abuse In a bold analysis of a century s worth of policy failure Drug War Politics turns on its head many familiar bromides about drug politics It demonstrates how instead of learning from our failures we duplicate and reinforce them in the same flawed policies The authors examine the politics of denial that has led to this catastrophic predicament and propose a basis for a realistic and desperately needed solution Domestic and foreign drug wars have consistently fallen short because they are based on a flawed model of force and punishment the authors show The failure of these misguided solutions has led to harsher get tough policies debilitating cycles of more force and punishment and a drug problem that continues to escalate On the foreign policy front billions of dollars have been wasted corruption has mushroomed and human rights undermined in Latin America and across the globe Yet cheap drugs still flow abundantly across our borders At home more money than ever is spent on law enforcement and an unprecedented number of people disproportionately minorities are incarcerated But drug abuse and addiction persist The authors outline the political struggles that help create and sustain the current punitive approach They probe the workings of Washington politics demonstrating how presidential and congressional out toughing tactics create a logic of escalation while the criticisms and alternatives of reformers are sidelined or silenced Critical of both the punitive model and the legalization approach Drug War Politics calls for a bold new public health approach one that frames the drug problem as a public health not a criminal concern The authors argue that only by situating drug issues in the context of our fundamental institutions the family neighborhoods and schools can we hope to provide viable treatment prevention and law enforcement In its comprehensive investigation of our long futile battle with drugs and its original argument for fundamental change this book is essential for every concerned citizen

**Drug Wars** Curtis Marez, 2004 Inaugurated in

1984 America's War on Drugs is just the most recent skirmish in a standoff between global drug trafficking and state power. From Britain's nineteenth century Opium Wars in China to the activities of Colombia's drug cartels and their suppression by U.S. backed military forces, today's conflicts over narcotics have justified imperial expansion, global capitalism, and state violence, even as they have also fueled the movement of goods and labor around the world. In *Drug Wars*, cultural critic Curtis Marez examines two hundred years of writings, graphic works, films, and music that both demonize and celebrate the commerce in cocaine, marijuana, and opium, providing a bold interdisciplinary exploration of drugs in the popular imagination. Ranging from the writings of Sigmund Freud to pro-drug lord Mexican popular music, gangsta rap, and Brian De Palma's 1983 epic *Scarface*, *Drug Wars* moves from the representations and realities of the Opium Wars to the long history of drug and immigration enforcement on the U.S. Mexican border, and to cocaine use and interdiction in South America, Middle Europe, and among American Indians. Throughout, Marez juxtaposes official drug policy and propaganda with subversive images that challenge and sometimes even taunt government and legal efforts. As Marez shows, despite the state's best efforts to use the media to obscure the hypocrisies and failures of its drug policies, be they lurid descriptions of Chinese opium dens in the English popular press or Nancy Reagan's Just Say No campaign, marginalized groups have consistently opposed the expansion of state power that drug traffic has historically supported. Curtis Marez is assistant professor of critical studies at the University of Southern California School of Cinema Television.

Drug War Politics Eva Bertram, 1996-07-15 An important and timely book. The authors capture the dynamics of drug debate with uncanny accuracy. Too often, treatment and prevention get the short end of the stick in Congress, and this book explains why. *Drug War Politics* makes a compelling case for bringing public health principles to bear on the drug epidemic and is essential reading for serious students of the drug issue.

Senator Edward M. Kennedy: A thoughtful analysis of the most fundamental and troublesome social problem in America. It reaches behind rhetoric and starts making sense about how we can go about saving ourselves from two addictions: the terrible affliction of drugs and the easy talk that makes the rest of us feel good but does not deal with the problem.

Kurt Schmoke, Mayor, City of Baltimore: This well-informed book shows how political expediency and a punitive conventional wisdom have combined over the past decades to support a national drug policy that fills our prisons, depletes our budget, and destroys our poor. This is a wonderfully sane analysis of what has become a major form of national insanity.

Frances Fox Piven, City University of New York: We've needed a new way of thinking about the drug problem for a long time. Now we have it. *Drug War Politics* is one of the best efforts to reconceptualize a major aspect of crime, especially victimless crime that I have seen since Morris and Hawkins' *The Honest Politician's Guide to Crime Control* of nearly 30 years ago.

Theodore J. Lowi, Cornell University: A compelling analysis of our failure. The provocative public health solutions it proposes to the drug-related crime, violence, and despair that ravage many of our inner cities show that we can give people a chance, a chance to fight addiction and build better lives.

Congressman John Lewis: We will never be able to arrest, prosecute, or jail our way out of the

drug problem To understand why read this book The evidence is overwhelming we need a radical change in the mission and mandate of drug control Nicholas Pastore Chief of Police New Haven This is the smart citizens guide to the drug policy debate to why we spend so much time and money on things that don t work and to where we can look for guidance for things that do Barbara Geller Director Fighting Back New Haven

**Making Peace in Drug Wars** Benjamin Lessing,2017-12-07 Over the past thirty years a new form of conflict has ravaged Latin America s largest countries with well armed drug cartels fighting not only one another but the state itself In Colombia Mexico and Brazil leaders cracked down on cartels in hopes of restoring the rule of law and the state s monopoly on force Instead cartels fought back with bullets and bribes driving spirals of violence and corruption that make mockeries of leaders state building aims Fortunately some policy reforms quickly curtailed cartel state conflict but they proved tragically difficult to sustain Why do cartels fight states if not to topple or secede from them Why do some state crackdowns trigger and exacerbate cartel state conflict while others curb it This study argues that brute force repression generates incentives for cartels to fight back while policies that condition repression on cartel violence can effectively deter cartel state conflict The politics of drug war however make conditional policies all too fragile

**Lies, Damned Lies, and Drug War Statistics, Second Edition** Matthew B. Robinson,Renee G. Scherlen,2014-01-01 Revised and updated edition that analyses how the Office of National Drug Control Policy employs statistics to misleadingly claim the War on Drugs is a success First published in 2007 Lies Damned Lies and Drug War Statistics critically analyzed claims made by the Office of National Drug Control Policy ONDCP the White House agency of accountability in the nation s drug war since 1989 as found in the six editions of the annual National Drug Control Strategy between 2000 and 2005 In this revised and updated second edition of their critically acclaimed work Matthew B Robinson and Renee G Scherlen examine seven more recent editions 2006 2012 to once again determine if ONDCP accurately and honestly presents information or intentionally distorts evidence to justify continuing the drug war They uncover the many ways in which ONDCP manipulates statistics and visually presents that information to the public Their analysis demonstrates a drug war that consistently fails to reduce drug use drug fatalities or illnesses associated with drug use fails to provide treatment for drug dependent users and drives up the prices of drugs They conclude with policy recommendations for reforming ONDCP s use of statistics as well as how the nation fights the war on drugs Praise for the First Edition Lies Damned Lies and Drug War Statistics is surprisingly easy to read and Robinson and Scherlen have done a huge favor not only to critics of current drug policy by compiling this damning critique of ONDCP claims but also to anyone interested in how data is compiled presented and misused by bureaucrats attempting to guard their domains It should be required reading for members of Congress Drug War Chronicle Book Review The authors have performed a valuable service to our democracy with their meticulous analysis of the White House ONDCP public statements and reports They have pulled the sheet off what appears to be an official policy of deception using clever and sometimes clumsy attempts at statistical manipulation This

document at last gives us a map of the truth Mike Gray author of Drug Crazy How We Got into This Mess and How We Can Get Out Robinson and Scherlen make a valuable contribution to documenting how ONDCP fails to live up to basic standards of accountability and consistency Ethan Nadelmann Executive Director Drug Policy Alliance Drug Wars Jonathan Marshall,1991 The violence that surrounds drug dealing and drug trafficking has decimated whole communities and in some cases reshaped daily life in entire countries This volume takes a closer look at the people affected by the drug trade and the efforts being made to combat it The book includes firsthand stories critical thinking questions and a summative activity all with the aim of showing the human toll of the drug economy Drug Wars and Coffeehouses David R. Mares,2006 An international policy issue awash in myths moral inconsistencies social prejudices and political rhetoric it's no wonder students find the international drug trade an alluring topic to study and discuss With his brief and engaging new book David Mares explores the reasons why there is so much disagreement among nations about which policies are most appropriate to address drug production distribution and trade From the more tolerant coffee house style policies of the Netherlands which focus on public health concerns to the United States just say no drug war approach nations frame and seek to resolve these issues in very different ways and with different levels of success This variation creates a host of global cooperation and policy coordination problems making Drug Wars and Coffee Houses an ideal supplement for giving students an opportunity to apply the larger themes of any political economy course to a substantive policy area A compelling framework focusing on political economic ideas and analysis shows students how leaders and policymakers need to understand the drug trade as a full blown commodity system if they are to impact its different segments As he discusses drug production consumption distribution and money laundering Mares carefully shows what insights micro political economic realist constructivist and social deviant perspectives each bring to bear on the problem And through the book's use of extended case studies this text offers students an inside look at a complex and fascinating policy area from Sweden's attempts to enforce drug war style policies to the UK's movement towards decriminalization to the responses of such international organizations as the United Nations and the European Union A comprehensive bibliography of websites articles and book length studies point to further research on the topic while class tested research and study questions for each chapter will jumpstart class discussions and projects **Drug War Zone** Howard Campbell,2009-10-15 Presents an anthropological study of drug trafficking and drug law enforcement on the Mexican American border **The Reasons for the Failure in the Mexican Drug War** Sandra Schaftner,2023-08-14 Seminar paper from the year 2019 in the subject Politics Region Other States grade 1 0 Tecnol gico de Monterrey International Relations course State and Economy language English abstract Why did the strategies of the Drug War implemented by the Mexican governments from 2006 to 2018 fail The so called Drug War has now been raging in Mexico for almost 13 years Ending the violence is one of the greatest challenges facing Mexican President Andr s Manuel Lopez Obrador who has been in office since December 2018 During the election campaign he had announced that he would fundamentally

change the strategies of his predecessors Felipe Calder n President from 2006 to 2012 and Enrique Pe a Nieto in office from 2012 to 2018 away from chasing the heads of drug cartels with massive military action and towards anti corruption measures and social programs A change of direction was necessary because the strategies applied by Calder n and Pe a Nieto had failed in the view of many experts as well as the literature In this paper the strategies of governments from 2006 to 2018 and the reasons for their failure are analyzed First the theoretical foundations based on the literature on new wars drug economies and state weakness are laid Built on the theoretical discussion three propositions are derived from the hypothesis If the Mexican governments apply the wrong strategies they will fail in the Drug War to better analyze the qualitative research puzzle The analysis is based on the three features militarization and kingpin strategy ongoing prohibitionist policies and state weakness that serve as independent variables for the qualitative explanation of the failure in the Drug War The strategies and their outcomes are studied using academic literature government documents and official statistics It is shown that Pe a Nieto announced a change of course in the Drug War but in fact continued like his predecessor Therefore the reasons for the failure of both strategies will be studied in combination and the research question will be answered The main finding is that the implementing of the militarization and kingpin strategy the ongoing drug prohibition and the persistent state weakness led to an increase in violence and in the power of the Mexican Drug Trafficking Organizations DTOs thus to failure in the Drug War The specialty of this work is that the strategies are analyzed using political science theories and concepts such as those of new wars and state weakness

**Tough on Dope** Sarah Brady Siff,2016 This dissertation places state lawmaking and local enforcement at the center of its analysis of the U S drug wars by exposing California s efforts to reduce the traffic in illicit substances during the first two decades of the postwar era In contrast with existing work that sees drug enforcement as federally directed this research reveals that state and local initiatives drove attitudes and action on illegal drugs The California drug control experience in the postwar era shows that the drug wars were locally escalated through grassroots campaigns overzealous law enforcement and political jockeying to solve the problem of increasing illicit drug use Beginning just after World War II law enforcement agencies and the mass media in the greater Los Angeles area encouraged widespread panic over heroin and marijuana smuggled from Mexico Federal agencies fueled this concern during congressional hearings on organized crime which connected the narcotics menace to the mafia and communism birthing

local crime commissions focused on drugs and juvenile delinquency Police Chief William H Parker engineered a brutal narcotics enforcement regime that targeted minority neighborhoods and violated the constitutional rights of drug defendants in defiance of court rulings suggesting Los Angeles as a western site of massive resistance Californians interrogated the relationships between federal state and local enforcement arms whose leaders often disagreed and failed to cooperate Increasingly politicized drug control became a major issue in the 1962 governor s race with Republican Richard Nixon pressing for harsh penalties and Democrat Pat Brown seeking to protect the rights of drug defendants and replace prison time with rehab California s critique of the federal drug control regime was widely publicized and convinced President John F Kennedy to reorganize federal agencies tasked with combatting drugs California exercised an early and deep influence over the course of U S drug policy at midcentury by pressing the federal government to combat drug trafficking from Mexico and questioning the methods of longtime drug czar Harry J Anslinger This dissertation extends backward the traditional timeline of the modern U S drug wars and opens a discussion about the roles played by citizens local officials and state governments
