Dreams And Dictators:

Dictator's Dreamscape Joseph R. Hartman, 2019-04-23 Joseph Hartman focuses on the public works campaign of Cuban president and later dictator Gerardo Machado Political histories often condemn Machado as a US puppet dictator overthrown in a labor revolt and popular revolution in 1933 Architectural histories tend to catalogue his regime's public works as derivatives of US and European models Dictator's Dreamscape reassesses the regime's public works program as a highly nuanced visual project embedded in centuries old representations of Cuba alongside wider debates on the nature of art and architecture in general especially in regards to globalization and the spread of US style consumerism The cultural production overseen by Machado gives a fresh and greatly broadened perspective on his regime's accomplishments failures and crimes The book addresses the regime's architectural program as a visual and architectonic response to debates over Cuban national identity US imperialism and Machado's own cult of personality *Dreams and Dictators* Herman

Overcoming Dictatorships Jutta Vinzent, 2008 Overcoming Dictatorships explores art produced in response to the collapse of political authoritarian systems in 1989 particularly those of the Soviet bloc A case in point is the visual work and discussions of ten artists who have been selected and commissioned by Overcoming Dictatorships a 2006-09 project generously funded by the European Union EU It aims to create a dialogue on post dictatorial experiences among participants from countries designated as East and West Europe Their works represent attempts to overcome collective identity formations of the past i e the Soviet bloc National Socialism and Fascism critically engage with the fear of new dictatorships including consumerism globalization and mass media and question western political and social economic uniformities including the EU Hence Overcoming Dictatorships challenges compartmentalized thinking and thus attempts to overcome authoritarianism It is not the intention to add another pillar to a proclaimed European cultural heritage but rather to contribute to bridging the East and the West exposing the concepts of East and West Europe as in transition which as dominant cultural reference points for the contemporary visual may also be on the way out being replaced by an endless
