*Border Approaches* Hastings Donnan, Thomas M. Wilson, 1994-09-06 Outgrowth of the annual conference of the Anthropological Association of Ireland held in May 1992 in Carlingford County Louth Ireland Borderlands Hastings Donnan, Thomas M. Wilson, 2010-04-16 Borderlands are often seen as zones of instability uncertainty marginality and danger Yet they increasingly attract the attention of ethnographers as a unique lens through which to view the intersections of the national transnational and global forces that shape the securities and insecurities of our globalizing age The contributors to this volume examine how different kinds of in security manifest and interconnect at state borders encompassing the personal and the political the social and the economic in ways that reinforce or undermine the identities of those whose lives these borders frame Drawing upon case studies from the Southern Cone the U S Mexico border and borders in Greece Ireland and southeast Asia the authors show that borders raise questions of security not just for those who live and cross them including ethnographers but also for the sustainability of the physical environments and wildlife disturbed by the passage movement and containment borders generate Routledge Handbook of Borders and Tourism Dallen J. Timothy, Alon Gelbman, 2022-12-13 The Routledge Handbook of Borders and Tourism examines the multiple and diverse relationships between global tourism and political boundaries With contributions from international leading thinkers this book offers theoretical frameworks for understanding borders and tourism and empirical examples from borderlands throughout the world This handbook provides comprehensive overview of historical and contemporary thinking about evolving national frontiers and tourism Tourism by definition entails people crossing borders of various scales and is manifested in a wide range of conceptualizations of human mobility Borders significantly influence tourism and determine how the industry grows is managed and manifests on the ground Simultaneously tourism strongly affects borders border laws border policies and international relations This book highlights the traditional relationships between borders and tourism including borders as attractions barriers transit spaces and determiners of tourism landscapes It offers deeper insights into current thinking about space and place mobilities globalization citizenship conflict and peace trans frontier cooperation geopolitics otherness and here versus there the heritagization of borders and memory making biodiversity and bordering debordering and rebordering processes Offering an unparalleled interdisciplinary glimpse at political boundaries and tourism this handbook will be an essential resource for all students and researchers of tourism geopolitics and border studies geography anthropology sociology history international relations and global studies *Pastoralist Resilience to Environmental Collapse in East Africa since 1500* Gufu Oba, 2024-02-23 This book explores pastoralist farmers approaches to environmental disaster management in East Africa charting their responses and adaptations to famine pandemics natural disasters and historical events Using a dynamic adaptive cycle theoretical framework it uses social memory to reconstruct an event history calendar thus combining social memory and written historical records to reconstruct the adaptive strategies of pastoralists It explores the climate

history of the southern Ethiopian and northern Kenyan frontier considering in particular the impact of the colonial period and independence thereafter providing a significant contribution to debates in African environmental history Border Studies Thomas M. Wilson, 2025-08-11 This multidisciplinary book provides a diverse overview of social science approaches to geopolitical borders social boundaries and cultural frontiers An array of esteemed specialists examine political imaginaries of border security and identify methodological innovations that will enhance future scholarly work in the field They also discuss the multiplicity of borders with a view to addressing the question how far have we come *Border Identities* Thomas M. Wilson, Hastings Donnan, 1998-01-22 This book offers fresh insights into the complex and various ways in which international frontiers influence cultural identities Ten anthropological case studies describe specific international borders in Europe Asia Africa and North America and bring out the importance of boundary politics and the diverse forms that it may take As a contribution to the wider theoretical debates about nationalism transnationalism and globalization it will interest to students and scholars in anthropology political science international studies and modern history **Borders** Hastings Donnan, Thomas M. Wilson, 2021-03-10 Borders are where wars start as Primo Levi once wrote But they are also bridges that is sites for ongoing cultural exchange Anyone studying how nations and states maintain distinct identities while adapting to new ideas and experiences knows that borders provide particularly revealing windows for the analysis of self and other In representing invisible demarcations between nations and peoples who may have much or very little in common borders exert a powerful influence and define how people think as well as what they do Without borders whether physical or symbolic nationalism could not exist nor could borders exist without nationalism Surprisingly there have been very few systematic or concerted efforts to review the experiences of nation and state at the local level of borders Drawing on examples from the US and Mexico Northern Ireland Israel and Palestine Spain and Morocco as well as various parts of Southeast Asia and Africa this timely book offers a comparative perspective on culture at state boundaries The authors examine the role of the state ethnicity transnationalism border symbols rituals and identity in an effort to understand how nationalism informs attitudes and behaviour at local national and international levels Soldiers customs agents smugglers tourists athletes shoppers and prostitutes all provide telling insights into the power relations of everyday life and what these relations say about borders This overview of the importance of borders to the construction of identity and culture will be an essential text for students and scholars in anthropology sociology political science geography nationalism and immigration studies **Landscape, Culture and Belonging** Neeladri Bhattacharya, Joy L. Borderlands consisting of a number of articles by prominent scholars aims to begin to fill a large gap in Ottoman studies namely the study of the borderlands and their socially ethnically and religiously heterogeneous population In both the frontier provinces and the semiautonomous borderlands the central government used force economic incentives and the granting of titles to establish control over local rulers and when possible to integrate them into the system However despite the pressing power of the central government the borderlands remained cultural social units with their own identities and their own internal dynamics While the core provinces were more Ottoman Islamic and Turkish speaking the borderlands were culturally religiously and linguistically more heterogeneous as well as more politically autonomous Originally published by the International Journal of Turkish Studies **Journal of the Anthropological Society of Oxford** Anthropological Society of Oxford,1994 **Living with the Lake** Matthias Krings,Editha Platte,2004 *International Migration Research* Michael Bommers,Ewa T. Morawska,2005 The centrality of international migration as a process articulating major transformations of contemporary societies offers an opportunity to make it the shared component of the theoretical and research agendas of the social science disciplines In this volume a multidisciplinary team of authors presents a stocktaking account of current research on international migration in order to lay the ground for such an interdisciplinary collaboration The first part of the book scrutinizes the theoretical concepts and interpretative frameworks that inform migration research and their impact on empirical studies in selected disciplines The next two sections examine the epistemological premises underlying migration research in different fields of the social sciences and the challenges of informed translations between these approaches The final section considers the interdependency between the academic study of migration and the social and political contexts in which it is embedded The book invites researchers to address the challenges raised by the empowerment of migration research offering ways of communicating across different specializations and guiding readers towards a meaningful interdisciplinarity
