ARCHAEOLOGY AND WOMEN Sue Hamilton, Ruth D Whitehouse, Katherine I Wright, 2007-05-15 Archaeology and Women draws together from a variety of angles work currently being done within a contemporary framework on women in archaeology One section of this collection of original articles addresses the historical and contemporary roles of women in the discipline Another attempts to link contemporary archaeological theory and practice to work on women and gender in other fields Finally this volume presents a wide diversity of theoretical approaches and methods of study of women in the ancient world representing a cross section of work being carried out today under the broad banner of gender archaeology The geographical and chronological range of the contributions is also wide from Southeast Asia and South America to Western Asia Egypt and Europe from Great Britain to Greece and from 10 000 years ago to the recent past An ideal sampler for courses dealing with women and archaeology

[New Literature on Women](#), 1996 **The Discovery of the Greek Bronze Age** J. Lesley Fitton, 1996 The Classical Greeks sought their own origins in legends of gods and heroes It was not until the discipline of archaeology emerged in the nineteenth century that the evidence of material culture could be used to form an image of the earliest societies in Greek lands Only in the last 125 years have the Cycladic Minoan and Mycenaean

peoples been brought to light and an elaborate framework of dates styles periods and events constructed to enable us to understand the Aegean Bronze Age Where have these facts come from and how accurately do they actually describe a remote period from which there is no written history To trace the progression from a blank to a complex picture this book begins with the towering achievements of individuals such as Heinrich Schliemann and Arthur Evans whose dramatic discoveries made them household names The author then charts the consolidation and often controversial reinterpretation of their finds by succeeding generations thereby raising fascinating questions about how archaeological knowledge is acquired and how our changing assumptions and attitudes shape our view of the ancient past
