Boston Marriage:

Boston Marriage David Mamet, 2010-02-17 One of America's most provocative dramatists conquers new territory with this droll comedy of errors set in a Victorian drawing room Anna and Claire are two bantering scheming women of fashion who live together on the fringes of society Anna has just become the mistress of a wealthy man from whom she has received an enormous emerald Claire meanwhile is infatuated with a young girl and wants to enlist the jealous Anna's help for an assignation As the two women exchange barbs and taunt their hapless maid Claire's innamorata arrives and sets off a crisis that puts both the valuable emerald and the women's future at risk Mamet brings his trademark tart dialogue and impeccable plotting spiced with Wildean wit to this wickedly funny comedy [Reader's Guide to Lesbian and Gay Studies](#)

Timothy Murphy, 2013-10-18 The Reader's Guide to Lesbian and Gay Studies surveys the field in some 470 entries on individuals Adrienne Rich arts and cultural studies Dance ethics religion and philosophical issues Monastic Traditions historical figures periods and ideas Germany between the World Wars language literature and communication British Drama law and politics Child Custody medicine and biological sciences Health and Illness and psychology social sciences and education Kinsey Report *Boston Marriages* Esther D. Rothblum, Kathleen A. Brehony, 1993 This collection of theoretical essays and personal stories is not just about Boston marriages a term referring to two women in a nonsexual but nonetheless deeply committed relationship As the book so well concludes there is no language for this type of relationship not just for lesbians but for anyone gay straight male or female who relates to others outside the traditional roles of friend lover spouse or relative Living in a society that invalidates a love that has not been sexually validated the women subjects of this book speak passionately about relationships they have kept hidden even from their own lesbian community the essays by well known writers in the area of lesbian studies pale in comparison This book's apparently specific nature should not deter academics and others interested in the study of human relationships For academic libraries and women's studies collections

Moby Dick's Ishmael and Queequeg share a bed Janie in Zora Neale Hurston's *Their Eyes Were Watching God* imagines her tongue in another woman's mouth And yet for too long there has not been a volume that provides an account of the breadth and depth of queer American literature This landmark volume provides the first expansive history of this literature from its inception to the present day offering a narrative of how American literary studies and sexuality studies became deeply entwined and what they can teach each other It examines how American literature produces and is in turn woven out of sexualities gender pluralities transness erotic subjectivities and alternative ways of inhabiting bodily morphology In so doing the volume aims to do nothing less than revise the ways in which we understand the whole of American literature It will be an indispensable resource for scholars graduate students and undergraduates

Regions of Identity, 1999-03 Examining turn of the century American women's fiction the author argues that this writing played a crucial role in the production of a national fantasy of a unified American identity in the face of the racial regional ethnic and sexual divisions of the period Contributing to New Americanist perspectives of nation formation the book shows that these writers are central to American literary discourses for reconfiguring the relationship among constituent regions in order to reconfigure the nation itself

Analyzing fiction by Sarah Orne Jewett Florence Converse Pauline Hopkins Mar a Amparo Ruiz de Burton Kate Chopin and Sui Sin Far the book foregrounds the ways each writer's own location on the grid of American identities shapes her attempt to forge an inclusive narrative of America This disparate group of writers Northerners Southerners Californios African Americans Chinese Americans Anglo Americans heterosexuals and lesbians reflects the widespread nature of concerns over national identity and the importance of regions to representations of that identity The author argues that femininity as a politicized cultural construct is basic to each of these author's attempts to recast America because each understands the link between true womanhood and the longstanding equation of New England with the nation But such attempts to mobilize the naturalized feminine to stabilize a fractured and exclusionary American identity inevitably reveal the fissures that undermine the universality of both categories The book thus participates in several larger and ongoing conversations within American studies and feminist literary and genre criticism the reassessment of regional and minor fiction in relation to national identity the critique of the politics of genre construction the uses and limits of identity politics and the connections among all these
