v 2 **Annual Report** New York (State). Forest Commission,1886 *Catalogue of the library of the Pharmaceutical society of Great Britain. Appended in the catalogue of the North British branch* John William Knapman,1885 *Daniel McAlpine and The Bitter Pit* Douglas G. Parbery,2014-10-27 This book is a biography of a scientist who pioneered the development of plant pathology in Australia in the 19th and early 20th century and was internationally acclaimed After 20 years as a plant pathologist he was asked to find the cause and cure of a serious physiological disorder of apples While the cause eluded him and everyone else for another 60 years he again won international gratitude for the improvements he brought to the apple industry However because he did not find the cause he was deemed to have failed by his political masters who were malignantly influenced by a jealous rival The discovery in 2012 2013 of government files covering the period of the bitter pit investigation from 1911 to 1916 reveal the extent of the unjust criticism of McAlpine while history has vindicated the management recommendations made to reduce bitter pit losses The focus on bitter pit management late in McAlpine s Career also meant that those who value his memory have been less aware of the remarkable achievements of McAlpine in the time before he left Great Britain the brilliance of his teaching and drawing skills featured in the early teaching texts for botany and zoology the latter with his brother which are now accessible on line The objective of this book is to demonstrate that i the view that McAlpine had failed in his quest was wrong and seriously unjust ii McAlpine achievements extend beyond plant pathology and include significant contributions to the 19th century teaching of botany and zoology contributions which reinforce the adage a picture is worth a 1 000 words Catalogue Pharmaceutical Society of Great Britain.
