Bounty Beware:

If This Be Treason: Benedict Arnold and George Washington's Spies J. Kenneth Metz, 2017-07-28 It is 1777 and Benedict Arnold is a hero. Although famous for his victories over the British during the War of American Independence, Major Arnold is unhappy. Forced into single fatherhood and distraught that Philadelphia has fallen to the enemy, it is all Arnold can do to stay sane. But he has not yet met Peggy Shippen. After Arnold and Shippen marry, he has no idea that she has eyes for British spymaster John Andr . But when Washington's spies, the Culper Ring, eventually uncover a conspiracy by the Arnolds and Andr  to hand over the West Point fort to the British, American patriots immediately brand Arnold's defection as treason, while the British and some Americans see him as a patriot. As the fates of Peggy and her two men hang precariously in the balance, now only time will tell how history will label each of them. In this historical tale, three fascinating characters in America's history personify the maxim that one man's traitor is another man's patriot. [Kun Fayakun - The Divine Decree](#) Sabeen Roshan, 2019-02-18 The conundrum around creating a life of infinite abundance and everlasting joy is still very real for many who are struggling despite the wealth of knowledge available on conscious creation, including the famous Law of Attraction. While this law has given us a solid foundation, there are multiple layers to deliberate manifestation that influence our quantum creation capacity. The book integrates the various approaches many manifestation masters have taken to share their invaluable insights with the world. The purpose of this book is to highlight that despite diverse forms of expression of the various laws, the heterogeneous angles from which manifestation is attempted, to be understood and tackled, it is important to grasp the underlying principles and the science on which intentional manifestation is based. An understanding of all the theories makes it clear that these are all, in fact, interconnected constituents with strong mutual correlation. Resultantly, it can catapult our manifestation powers to unprecedented heights. The author attempts to give the readers an expansive view of the co-creation dynamics, enabling them to identify abundance blocks plaguing their lives and the keys to unleashing their full potential. [Kun Fayakun - The Divine Decree](#) is a simple yet comprehensive guide to harnessing the cooperative and constructive energies of the universe for positive manifestations. Mortimer, 2007-07-15 Mortimer's book is grounded in that of Crowley, yet he goes beyond it, and I think the Master Therion would applaud. He tackles issues obviously based on experience which have never been satisfactorily tackled before. If you have the slightest sincere interest in Magick and human evolution, you really must get hold of this book. The author's acid wit regarding New Age garbage adds spice to this excellent work.
