Olmec Lithic Economy at San Lorenzo Kenneth Hirth, Ann Cyphers, 2020-08-15 Olmec Lithic Economy at San Lorenzo examines the specialized craft production manufacturing adoption and spread of obsidian cutting tools at San Lorenzo Mexico the first major Olmec center to develop in the southern Gulf Coast region of Mesoamerica Through the systematic analysis of this single commodity Kenneth Hirth and Ann Cyphers reconstruct the importation of raw material and the on site production and distribution of finished goods from a specialized workshop engaged in the manufacture of obsidian blades The obsidian blade was the cutting tool of choice across Mesoamerica and used in a wide range of activities from domestic food preparation to institutional ritual activities Hirth and Cyphers conducted a three decade investigation of obsidian artifacts recovered at Puerto Malpica the earliest known workshop and seventy six other sites on San Lorenzo Island where these tools were manufactured for local and regional distribution Evidence recovered from these excavations provides some of the first information on how early craft specialists operated and how the specialized technology used to manufacture obsidian blades spread across Mesoamerica The authors use geochemical analyses to identify thirteen different sources for

obsidian during San Lorenzo's occupation. This volcanic glass, not locally available, was transported over great distances arriving in nodular and finished blade form. Olmec Lithic Economy at San Lorenzo offers a new way to analyze the Preclassic lithic economy: the procurement, production, distribution, and consumption of flaked stone tools, and shows how the study of lithics aids in developing a comprehensive picture of the internal structure and operation of Olmec economy. The book will be significant for Mesoamericanists as well as students and scholars interested in economy, lithic technology, and early complex societies.

La guerra y las palabras Jorge Volpi Escalante, 2004. El primero de enero de 1994 un grupo armado tomó la ciudad de San Cristóbal de las Casas así como otras localidades del estado de Chiapas en el sureste de México. Su líder, el subcomandante Marcos, antiguo estudiante de filosofía y profesor universitario, se convirtió en una de las figuras más carismáticas de finales del siglo XX. Defendiendo los derechos de los indígenas y el paso a una verdadera democracia, conquistó tanto a la opinión pública como a los intelectuales. Admirado y denostado, el subcomandante Marcos no tardó en convertirse en un mito, el primer escritor revolucionario dotado de sentido del humor. Empleando tanto los recursos propios de la ficción como el rigor del ensayo, Jorge Volpi reconstruye el ambiente intelectual en el que se urdió el alzamiento zapatista, deja que sus personajes intervengan por sí mismos, desmenuza sus acciones y sus palabras por sus páginas, desfilan figuras como Carlos Salinas de Gortari y Luis Donaldo Colosio al lado de Octavio Paz, Carlos Fuentes o Manuel Vázquez Montalbán, y se esfuerza por interpretar el sentido último de la revuelta. *La guerra y las palabras* puede ser leída como la crónica de uno de los episodios más desconcertantes y trascendentes de los últimos años. A diez años del inicio del levantamiento, el apasionante, contradictorio y misterioso periplo del subcomandante Marcos y el Ejército Zapatista de Liberación Nacional aparece así como una de las mejores narraciones latinoamericanas de nuestro tiempo.
