Chicago Parks Rediscovered:

Chicago Parks Rediscovered ,2002-01-04 From the sumptuous lakeshore to the inner city these images capture the light color and mood of our public spaces throughout the changing seasons Frederick Law Olmsted s and Jens Jensen s vision of a garden in a city is reflected within the pages of this book The images at once subtly incorporate and contrast the natural landscape within the urban landscape The Prairie style architecture that is found in many of Chicago s parks is both a reflection of the natural prairie and a reminder of the concrete urban landscape within which the parks are located These full color photographs of Chicago s well known and lesser visited parks make a perfect gift for those who enjoy outdoor spaces or gardens or for those who fondly remember the parks of their Chicago youth The totality of these images is an eloquent visual portrait of the origins of our bold and proud city from the vast wilderness of the mid western prairie Frank Dina has brought about an impressive re discovery and re affirmation of these islands of peace beauty and tranquillity amidst the bustle and dynamism that is Chicago

Chicago's Parks John Graf,2000-07-10 No other city in the world has a park system as great as Chicagos which includes over 550 parks totaling more than 7 000 acres Each park has its own story as well as unique characteristics and history and yet the majority of Chicagoans are not aware of the wealth variety and sheer number of parks that exist to say nothing of the ideas they project the history they commemorate and the origins of their names Chicagos Parks A Photographic History seeks to remedy this oversight From Chicagos first park Dearborn Park to its more famous parks of Grant and Lincoln this book provides a wealth of information concerning the origins of the names and plans of these Chicago landmarks A formal plan for the creation of a park system was developed in 1869 and soon Chicago had some of the greatest parks to be found anywhere in the world When Chicago was founded in 1837 the citys fathers adopted the motto urbs in horto or the city set in a garden Despite the numerous changes that have taken place over the past 160 years Chicago is still a city set in a garden Chicagos Parks A Photographic History captures the growth of that garden with its nearly 200 historic photographs

The City in a Garden Julia Sniderman Bachrach,2001 Gardens in the form of parks grew hand in hand with the pioneer town of Chicago Before the skyscrapers or the expositions Chicago s parks suggested a worldly sophistication not usually associated with a boomtown

The City in a Garden Julia Sniderman Bachrach,2012 Early Chicago park advocates dared to dream that vast stretches of swampy wasteland could be transformed into magnificent parks rivaling any in the world Bachrach s tale is filled with heroes and scoundrels idealism Chicago style politics and the sad decline caused by years of neglect but with a hopeful twist of restoration in recent years

Chicago's Parks John Graf,2000 No other city in the world has a park system as great as Chicago s which includes over 550 parks totaling more than 7 000 acres Each park has its own story as well as unique characteristics and history and yet the majority of Chicagoans are not aware of the wealth variety and sheer number of parks that exist to say nothing of the ideas they project the history they commemorate and the origins of their names Chicago s Parks A Photographic History seeks to remedy this oversight

From Chicago's first park Dearborn Park to its more famous parks of Grant and Lincoln this book provides a wealth of information concerning the origins of the names and plans of these Chicago landmarks. A formal plan for the creation of a park system was developed in 1869 and soon Chicago had some of the greatest parks to be found anywhere in the world. When Chicago was founded in 1837 the city's fathers adopted the motto *urbs in horto* or the city set in a garden. Despite the numerous changes that have taken place over the past 160 years Chicago is still a city set in a garden. Chicago's Parks: A Photographic History captures the growth of that garden with its nearly 200 historic photographs. Anthropologists and the Rediscovery of America, 1886-1965 John S. Gilkeson, 2010-09-20 This book examines the intersection of cultural anthropology and American cultural nationalism from 1886 when Franz Boas left Germany for the United States until 1965 when the National Endowment for the Humanities was established. Five chapters trace the development within academic anthropology of the concepts of culture, social class, national character, value, and civilization and their dissemination to non-anthropologists. As Americans came to think of culture anthropologically as a complex whole far broader and more inclusive than Matthew Arnold's *the best which has been thought and said so too did they come to see American communities as stratified into social classes distinguished by their subcultures to attribute the making of the American character to socialization rather than birth to locate the distinctiveness of American culture in its unconscious canons of choice and to view American culture and civilization in a global perspective.* **Black Genius** Dick Russell, 2009-02-02 In search of distinctly African American qualities of genius Russell has conducted interviews and historical research that explore the roots of black achievement in America of photos. *Introducing Just Sustainabilities* Julian Agyeman, 2013-05-09 This unique and insightful text offers an exploration of the origins and subsequent development of the concept of just sustainability. *Introducing Just Sustainabilities* discusses key topics such as food justice, sovereignty, and urban agriculture, community space, place making, and spatial justice, the democratization of our streets and public spaces, how to create culturally inclusive spaces, intercultural cities, and social inclusion, green collar jobs, and the just transition, and alternative economic models such as co-production. With a specific focus on solutions-oriented policy and planning initiatives that specifically address issues of equity and justice within the context of developing sustainable communities, this is the essential introduction to just sustainabilities. **The Survey**, 1928 *Great Lakes and Midwest Catalog* Partners Book Distributing, 2002 General Technical Report PNW-GTR, 1987 **The Status of Chicago's Parks** Friends of the Parks (Chicago, Ill.), 1993 **Catalogue** Harvard University. Graduate School of Design. Library, 1968 **The Neighborhood Works**, 1996 **A Short History of the Development of Chicago Parks** Raymond S. Knapp, 1955 **Outdoor Recreation in the Pacific Northwest and Alaska** Troy Elizabeth Hall, 2009 Population growth in Oregon, Washington, and Alaska is expected to increase demand for outdoor recreation on public land. This trend will be tempered by changes in the sociodemographic composition of the population. Among sociodemographic characteristics, different ages and incomes correspond to different

participation rates Although older Americans are participating more participation is still lower among this group for active pursuits Hence as the population ages demand for passive activities may increase Low income people participate at a much lower rate than higher income people in outdoor recreation and the growing disparity between the wealthy and poor may create inequities in opportunities for participation State recreation planning documents for Oregon Washington and Alaska have identified this issue as a significant concern for recreation providers Another important factor in recreation trends in the region is ethnicity different ethnic groups participate in outdoor recreation at different rates exhibit some different preferences for specific activities and use recreation sites in different ways In Alaska the number of Asian Pacific Islanders is expected to quadruple by 2025 in Oregon the Hispanic population may triple by 2025 and in Washington both these segments of the population may double
