The School Kitchen Textbook Mary Johnson Lincoln, 1915 The School Journal, 1903 An Unbroken Educational Apartheid Legacy David E. Morgan Ph.D., 2015-03-17 This is a thought provoking book on the black white academic achievement gap in Chicago s predominantly black communities of color and what highly effective school boards can do to change it In this book the reader will be powerfully enlightened by a civil and human rights debate that calls for effective leadership in our schools beginning with effective school boards The primary agenda of effective school boards is raising student achievement performance levels and engaging the school district community to attain that goal These instructive analyses of effective school board leadership builds on the research and wisdom of great leaders Simultaneously it develops a breath of fresh air for school reformers who seek to implement a new model and escape the insanity and pathology inherent in school board dysfunctions and violations of our civil and human rights which prevents progress in Chicago s south suburban communities of color In both highs and lows of awesome moments as educational reform leaders and school board members we are in a strategic leadership position to help school boards carry out their essential responsibilities for creating equity and excellence in public education In doing so highly effective school leaders can team with our school board leaders to lead our school district communities in preparing all students to succeed in a rapidly changing global society School board members doing the same things over and over again and then expecting different results in academic outcomes is the definition for insanity Education is freedom In an era of mass educational apartheid with its consequent mass incarceration of blacks that has surpassed the enforced chattel bondage of slavery s peak numbers in 1860 this book addresses a subject that is critically essential timely and in need of immediate attention for the security success and ultimate survival of black America As the problems of the academic under achievement gap is addressed in this book it is also essential that school boards educators and community and national leaders accept reality to view the problem in its true perspective to contemplate it as it is in providing essential solutions toward removing limiting and limited school boards dysfunctions obstructions and other barriers to academic achievement in effective school board leadership Supporting educational excellence will thereby produce more African American scholars in mathematics science and in many other disciplines This book will provide information and focus on some key action areas that successful school boards in America and around the world have focused their attention on Vision Standards Assessment Resource Alignment Climate Collaboration and Continuous Academic Improvement

Teaching, Learning, Literacy in Our High-Risk High-Tech World James Paul Gee, 2017 This is a profound look at learning language and literacy It is also about brains and bodies And it is about talk texts media

and society These topics though usually studied in different narrow academic silos are all part of one highly interactive process human development Gee argues that children will need to be resilient imaginative hopeful and deliberate learners to survive the deeply complex and unpredictable world in which they live In a world beset by conflicting ideologies that give rise to hatred violence and war Gee urges us to look to a broader set of ideas from seemingly unrelated disciplines for a viable vision of education This book proposes a framework of principles that can be used to reconceptualize education specifically literacy education to better prepare students to be collaborators toward peace and sustainability A highly readable tour de force on development teaching and learning in the digital age I think of Gee as an heir to Dewey David C Berliner Arizona State University This is the boldest and broadest of Gee s already expansive and influential body of work a must read for citizens parents educators and academics Glynda A Hull University of California Berkeley The world would be a better place if all educators took seriously Gee s recommendations to keep the long battle for human dignity going Diana Hess University of Wisconsin Madison
