**The Chief** Ronald Lewin,1980      **Wavell's Campaigns In The Middle East: An Analysis Of Operational Art** Major Lawrence Rucker Snead III,2014-08-15 Today the United States confronts an uncertain world The strategic environment has changed It no longer has one main enemy and a military force to confront that foe Instead the United States must be prepared to deal with a multiple of possible threats as its military continues to downsize This new regional orientation and world situation requires that the US Military be ready to fight simultaneous major regional contingencies to achieve the victories that the American people expect Therefore this study examines Field Marshall Wavell s campaigns in the Middle East in WWII to provide a historical case study of a similar situation There he had to simultaneously conduct a large number of campaigns and operations over four theaters of operations against different enemies under difficult conditions to achieve strategic objectives It compares this case study with the current strategic military requirements facing the US and current US Military doctrine to determine if the US is prepared to deal with multiple simultaneous regional contingencies Finally this monograph indicates that the US Military needs to update both its National Military Strategy and it s doctrine in order to be prepared to fight and win multiple simultaneous major regional contingencies in the future In addition this study has indicated a number of implications for the conduct of operational art by the US Military

**Tower of Skulls** Richard B. Frank,2020-03-03 A sweeping epic Promises to do for the war in the Pacific what Rick Atkinson did for Europe James M Scott author of Rampage In 1937 the swath of the globe east from India to the Pacific Ocean encompassed half the world s population Japan s onslaught into China that year unleashed a tidal wave of events that fundamentally transformed this region and killed about twenty five million people This extraordinary World War II narrative vividly portrays the battles across this entire region and links those struggles on many levels with their profound twenty first century legacies In this first volume of a trilogy award winning historian Richard B Frank draws on rich archival research and recently discovered documentary evidence to tell an epic story that gave birth to the world we live in now

*The Second World War in East Africa, 1940-1941* ,2024-12-16 As a first of its kind this edited collection brings together a variety of chapters dealing with different topics that address where possible most of the participants involved in or affected by the conflict as well as different often neglected aspects of the East Africa campaign of the Second World War In doing so this volume not only makes a definite contribution to the broader

historiography and to our understanding of a diverse complex Second World War but will also serve as an impetus for further topical research on an important yet neglected campaign of the war *A Genius for Deception* Nicholas Rankin, 2009-11-10 In February 1942 intelligence officer Victor Jones erected 150 tents behind British lines in North Africa Hiding tanks in Bedouin tents was an old British trick writes Nicholas Rankin German general Erwin Rommel not only knew of the ploy but had copied it himself Jones knew that Rommel knew In fact he counted on it for these tents were empty With the deception that he was carrying out a deception Jones made a weak point look like a trap In *A Genius for Deception* Nicholas Rankin offers a lively and comprehensive history of how Britain bluffed tricked and spied its way to victory in two world wars As Rankin shows a coherent program of strategic deception emerged in World War I resting on the pillars of camouflage propaganda secret intelligence and special forces All forms of deception found an avid sponsor in Winston Churchill who carried his enthusiasm for deceiving the enemy into World War II Rankin vividly recounts such little known episodes as the invention of camouflage by two French artist soldiers the creation of dummy airfields for the Germans to bomb during the Blitz and the fabrication of an army that would supposedly invade Greece Strategic deception would be key to a number of WWII battles culminating in the massive misdirection that proved critical to the success of the D Day invasion in 1944 Deeply researched and written with an eye for telling detail *A Genius for Deception* shows how the British used craft and cunning to help win the most devastating wars in human history **The Last Thousand Days of the British Empire** Peter Clarke, 2010-09-01 A sweeping brilliantly vivid history of the sudden end of the British empire and the moment when America became a world superpower published on the 60th anniversary of Britain's withdrawal from Palestine **Indian Information**, 1943 **The Cripps Mission** Basanta Kumar Mishra, 1982 **Generals at War** Sir Francis Wilfred De Guingand, 1964 **South Africa** Great Britain. Colonial Office, 1881 *Time* Briton Hadden, Henry R. Luce, 1942 **South Asian Studies**, 2002 Churchill Raymond Callahan, 1984 **Nehru, Ideology and Practice** E. M. S. Namboodiripad, 1988 Witness to an Era Francis Robert Moraes, 1974 Landmarks of the Pakistan Movement S. M. Burke, 2001 **Gentlemen in Khaki** John Strawson, 1989 During the last century the British Army has been ceaselessly on active service fighting one enemy or another all over the world It has in this time undergone profound change yet to look at the Army in 1890 and again today is also to observe remarkable similarities most notable of all being its priceless regimental system In tracing the Army's activities over this period John Strawson concentrates on the soldiers themselves whether Generals or Tommies and their performance in action Success in Queen Victoria's Imperial wars is followed by a major set back in South Africa carnage on the Western Front and the tragedy of Gallipoli are lightened by Allenby's triumphant campaign in Palestine being unprepared for Hitler's war brings inevitable failure in France and the Far East the slow road back is inspired by Britain's greatest man of action Mr Winston Churchill who figures so largely in the story From a small Imperial Army in 1890 keeping the Pax Britannica with the Royal Navy's aid we see its expansion and mechanization and

then after the Second World War National Service is retained for some years to deal with Korea and a retreat we have a small volunteer Army of professionals dedicated to Europe s defence Jacket **The War in the Far East, 1941-1945** Basil Collier,1969 *Documents on Australian Foreign Policy, 1937-49: July 1941-June 1942* Australia.
